Is BMW better than Mercedes? Mercedes-Benz vs BMW: Which Brand Has Better Performance? Performance is a crucial factor to consider when buying a luxury car. BMW has a slight edge over Mercedes in terms of performance and driving dynamics. However, Mercedes offers a more refined and luxurious driving experience.

Is BMW maintenance higher than Mercedes? On average, it can cost an extra \$5,000 to maintain a BMW over a ten-year period than it costs to maintain a vehicle such as a Mercedes-Benz. In addition, a BMW can cost upwards of \$12,000 more to maintain than a Toyota. According to experts, BMWs do not break down more often than other cars.

What is the most expensive thing to fix on a BMW? 1. Critical Engine Failure. One thing BMW owners never want to hear are the words “major engine damage.” Unfortunately, if you're dealing with a critical engine failure, you're facing a major bill. This is especially true if it involves your BMW's cylinders.

How often do BMW get serviced? BMW Recommended Service Intervals There are recommended timeframes to get maintenance depending on what BMW model you drive. Typically, your BMW should get service every 10,000 miles.

What is routine maintenance on a BMW? Recommended BMW Service Schedule
Every 10,000 miles: replace engine oil, oil filter, and coolant. Every 20,000 miles: inspect and replace fuel filters. Every 30,000 miles: Replace brake fluid (after the first replacement, every 60,000 miles) Replace transmission fluid on manual-

transmission BMWs.

How many km is a BMW service schedule?

How often should I change the oil on my BMW 5 series? Drivers are recommended to have a BMW oil change and filter replacement every 10,000 miles or 12 months. However, depending on your driving habits and the particular BMW model you drive, you may need to get a BMW oil change more frequently.

How do I know my BMW needs a service?

Why is BMW maintenance so high? BMW vehicles are popular for their high-quality engineering, performance, and precision. These factors contribute to the relatively higher maintenance costs of BMW. The premium build quality and use of superior materials transform into elevated maintenance expenses for these vehicles.

How long can a BMW go without an oil change? BMWs are special vehicles and the newest models are engineered to use synthetic oils and fluids that require less changing than traditional oils. They're designed to last up to 12,000 and even 15,000 miles, roughly one driving year, between oil change intervals.

What is the maintenance schedule for a BMW 5 series? General Maintenance Schedule 10,000 miles: Replace engine oil and oil filter. 30,000 miles: Verify engine temperature, inspect the exhaust system, and clean and examine the brake system. 60,000 miles: Replace the air filters, along with the spark plugs.

Is BMW scheduled maintenance worth it? Given that BMW has an average upkeep cost of \$968, having a maintenance plan ensures you do the scheduled services as outlined in your owner's manual. This can reduce major repairs from happening in the future. Overall, it's a smart option to consider if you plan to use your BMW dealership for services.

Why is a BMW oil change so expensive? BMW oil changes tend to be expensive due to various factors like the use of high-quality synthetic oil, specialized tools, and the brand's premium reputation, resulting in higher labor costs.

What is a full service on a BMW? This is a comprehensive annual service for trouble-free motoring. It exceeds most manufacturer's service schedules and

includes 77 checks and adjustments including an engine oil and oil filter change, air filter change, and a top up of brake fluid, power steering fluid and coolant.

How many km is a BMW timing chain? When should I replace my BMW timing chain? It's usually suggested that your timing chain is replaced around every 150,000 kilometres. This can differ depending on your specific vehicle.

How many km do BMW engines last? With a BMW you really want to make sure the basics are done on a regular schedule. It appears they start to die at about the age of 20–22. Mileage usually is around 500 000 - 700 000km. Top end models engines last much less.

How often should you change BMW gearbox oil? For most manual transmissions, you should change your fluid every 30,000 to 60,000 miles; for most automatic transmissions, you should change your fluid every 60,000 to 100,000 miles.

How do I know if my BMW needs oil? Your dipstick should have some sort of maximum and minimum line or markings, and the oil line should fall somewhere between them. If it falls below the minimum marking, you'll need to top off the oil in your engine. You can also check the color and texture. Clean oil is amber in color and smooth and free of impurities.

How often should I change synthetic oil in my BMW? BMW recommends regular synthetic oil changes every 5,000 to 10,000 miles.
