2008 Harley Electra Glide: A Comprehensive Guide**

What Engine is in a 2008 Harley Electra Glide?

The 2008 Harley Electra Glide is powered by the Twin Cam 96B engine, a 1,584 cc air-cooled V-twin engine.

Is the 2008 Electra Glide a Good Bike?

The 2008 Electra Glide is a solid touring motorcycle with a reliable engine, comfortable riding position, and ample storage capacity.

What is the Difference Between a Harley Street Glide and Electra Glide?

The Street Glide offers a sportier riding position than the Electra Glide, with forward controls, a lower windshield, and a shorter wheelbase.

What Motor is in a 2008 Harley Davidson Street Glide?

The 2008 Harley-Davidson Street Glide also features the Twin Cam 96B engine.

What Kind of Bike is an Electra Glide?

The Electra Glide is a touring motorcycle designed for long-distance travel.

Is Electra Glide a Good Touring Bike?

The Electra Glide is an excellent touring bike, offering comfort, storage, and power for extended journeys.

Are Harley Electra Glides Reliable?

Harley Electra Glides are generally reliable motorcycles with a proven track record.

Is a Harley Electra Glide Easy to Ride?

The Electra Glide is a well-balanced and stable motorcycle, making it relatively easy to ride for experienced and novice riders alike.

Why is it Called Electra Glide?

The Electra part of the name refers to the motorcycle's electrical system, which was considered advanced when it was first introduced. The Glide part alludes to its smooth and comfortable ride.

Why is an Electra Glide Cheaper Than a Street Glide?

The Electra Glide typically costs less than the Street Glide due to its more conservative styling and features.

Is Electra Glide Bigger Than Road King?

The Electra Glide is slightly larger than the Road King in terms of overall size and weight.

What Size Engine is in the 2008 Road Glide?

The 2008 Harley-Davidson Road Glide also features the Twin Cam 96B engine.

Is a Harley Street Glide a Cruiser?

Yes, the Harley Street Glide is a cruiser motorcycle.

Are Harley Engines 2 Stroke or 4 Stroke?

Harley-Davidson engines are four-stroke engines.

The choice between a Road Glide and a Street Glide depends on personal preferences for riding style and features.

What's the Difference Between a Road King and a Street Glide?

The Road King features a more classic styling, while the Street Glide offers a sportier and more streamlined appearance.

What is the Difference Between a Road Glide and an Electra Glide?

The Road Glide has a fixed fairing with a distinctive "shark nose" design, while the Electra Glide offers a more traditional full fairing.

Is an Electra Glide a Shovelhead?

No, the Electra Glide is not a shovelhead. The Shovelhead engine was a previous generation of Harley-Davidson powerplants used before the Twin Cam engine.

How do I Identify my Harley Engine?

You can identify your Harley engine by checking the engine case for an ID number that corresponds to a specific model and year.

Is a 2008 Harley-Davidson Ultra Classic Fuel Injected?

Yes, the 2008 Harley-Davidson Ultra Classic is fuel injected.

What Motor is in a 2007 Electra Glide?

The 2007 Electra Glide features the Twin Cam 88B engine, a 1,450 cc V-twin engine.

What is the Difference Between an Electra Glide and a Road King?

The Electra Glide is a touring motorcycle, while the Road King is a cruiser. The Electra Glide offers more storage and weather protection, while the Road King features a stripped-down, classic styling.

Is a Harley a 4 Stroke?

Yes, Harley-Davidson engines are four-stroke engines.

What Kind of Engines Do Harleys Have?

Harley-Davidson motorcycles typically feature air-cooled V-twin engines.

How to Tell if a Harley is Twin Cam?

Twin Cam engines have a single camshaft located in the cylinder head, behind the cylinders. Pre-Twin Cam engines have two camshafts located below the cylinders.

What is the Biggest Harley-Davidson Engine?

The biggest Harley-Davidson engine is the Milwaukee-Eight 117, a 1,923 cc V-twin engine.

Does my Harley Need Premium Gas?

Harley-Davidson motorcycles generally do not require premium gas, but it can be used to reduce detonation in certain circumstances.

Do Harleys Have Fuel Injection?

Yes, most modern Harley-Davidson motorcycles have fuel injection.

Do Fuel Injected Harleys Have a Choke?

Fuel injected Harleys do not have a traditional choke. Instead, they use an automatic idle control system to regulate engine speed during startup.
