Does Humax have an app? Download the Humax Aura app to a compatible smart device and stream Live TV and your recordings around the house. Set reminders and schedule recordings right from the app or download recorded shows straight to your device to take with you on the go.

How do I retune my Humax TV?

The Serenity Principle: Finding Inner Peace in Recovery

What is the Serenity Principle?

The Serenity Principle is a widely known maxim in recovery programs. It reads: "Grant me the serenity to accept the things I cannot change, the courage to change the things I can, and the wisdom to know the difference."

How does the Serenity Principle apply to recovery?

In recovery, we encounter challenges and obstacles that can seem overwhelming. The Serenity Principle helps us distinguish between the things we can control and those we cannot.

What are some examples of things we cannot change?

We cannot control the past, nor can we change others' behavior. We cannot predict the future or prevent all setbacks. Accepting these limitations reduces stress and anxiety.

What are some examples of things we can change?

We can change our own thoughts, feelings, and behaviors. We can take responsibility for our actions and make positive choices that support our recovery.

How does the Serenity Principle help us find inner peace?

By accepting the things we cannot change, we can release the burden of trying to control the uncontrollable. By focusing on changing what we can, we gain a sense of purpose and accomplishment. And by cultivating wisdom, we develop the ability to discern between the two, leading to greater peace and serenity in recovery.

Understanding the Wechsler Intelligence Scale for Children, Fifth Edition (WISC-III)

The Wechsler Intelligence Scale for Children, Fifth Edition (WISC-III) is a widely used intelligence test designed to assess the cognitive abilities of children between the ages of 6 and 16. Here are some frequently asked questions and answers about the WISC-III:

1. What does the WISC-III measure?

The WISC-III assesses various cognitive abilities, including:

- Verbal comprehension (e.g., vocabulary, comprehension)
- Perceptual reasoning (e.g., puzzles, block design)
- Working memory (e.g., digit span, arithmetic)
- Processing speed (e.g., coding, symbol search)

2. How is the WISC-III administered?

The WISC-III is administered by a trained professional, typically a psychologist or school psychologist. The test usually takes 60-90 minutes to complete.

3. What are the different sections of the WISC-III?

The WISC-III consists of three sections:

- *Verbal Scale*: measures verbal abilities, such as vocabulary and comprehension.
- *Performance Scale*: measures nonverbal abilities, such as puzzles and block design.
- *Full Scale IQ*: combines the scores from both the Verbal and Performance Scales to provide an overall measure of intelligence.

4. How are the results interpreted?

The WISC-III results are presented as standard scores, with a mean of 100 and a standard deviation of 15. Scores above 115 are considered above average, while

scores below 85 are considered below average.

5. What are the limitations of the WISC-III?

Like any intelligence test, the WISC-III has limitations. It may not be suitable for children with certain disabilities or language impairments. Additionally, the test may be biased towards certain cultural or socioeconomic groups.

What are the requirements for Sasol learnership?

What is the interview process for Sasol? Sasol's interview process typically involves multiple rounds, including technical assessments, behavioral interviews, and potential presentations or case studies. The goal is to evaluate candidates' skills, experience, and fit with the company's culture and requirements.

How much do you get paid for Sasol learnership? How much is the stipend for learnership? Generally, the learnership pays for around R2000 for the learners as their stipend. Meanwhile, for the learnership, it will cost around R45 500.

What questions do they ask in learnership?

Do learnerships pay? You will be paid a stipend – this will not be equivalent to a full time salary but should at least cover your transport and meals. There's no guarantee at the end of the learnership that the company will employ you.

What are the 3 rounds of interview?

What kind of questions are asked in an interview?

How do I pass a recruiting interview?

Does Sasol pay well? The average Sasol monthly salary ranges from approximately R 5 800 per month for Gas Station Attendant to R 48 580 per month for Instrument Technician. The average Sasol salary ranges from approximately R 437 276 per year for Training Developer to R 1 567 657 per year for Senior Manager.

Which country owns Sasol? Sasol Limited is an integrated energy and chemical company based in Sandton, South Africa. The company was formed in 1950 in

Sasolburg, South Africa, and built on processes that German chemists and engineers first developed in the early 1900s (see coal liquefaction).

Are learnerships effective in South Africa? They are central to skills upliftment in South Africa and in bringing young people onto the employment ladder and into solid career and employment trajectories. The benefits for employers and learners are ample.

What happens after completing a learnership? Once the learnership is completed, the employer can decide whether to sign the learner on for a new learnership, employ the learner or release the learner for future employment by another organization, if he/she was originally unemployed.

What to wear to a learnership interview? Wear something comfortable. Safest option is dress pants and a button up shirt. Avoid casual wear like thongs, sandals, shorts or singlets. Don't wear jeans.

How to answer tell us about yourself?

What are the disadvantages of learnerships?

What is a difference between learnership and internship? To put it simply a learnership programme differs from an internship as it contains both practical and theoretical learning components. An internship differs from a learnership as it focuses primarily on giving individuals workplace experience.

What is a stipend in South Africa? A learner stipend is a monthly payment made to a learner undergoing a certain training programme for the duration of that training programme.

What are the minimum requirements for a learnership? Learnerships are available for young people who are just leaving school, college or other training institutions after completing some formal education, and for people who have been unemployed for some time. People entering a learnership must be at least 16 years old and younger than 35 years.

Can I get a learnership without matric? Some businesses offer learnerships to people who do not have their matric qualification. The academic requirements for

learnerships vary with different institutions. While some do prefer you to have matric, others don't. Companies like Eskom offer Learnerships for young people without Matric.

What are the requirements for SDC learnership?

What is the difference between apprenticeship and learnership? Learnerships offer a structured learning environment and are designed to prepare learners for a specific occupation or industry. On the other hand, if you are interested in a specific trade or craft and want to gain hands-on experience, then an apprenticeship may be the right choice for you.
