**What happens in The Hobbit: The Desolation of Smaug?** Summaries. The dwarves, along with Bilbo Baggins and Gandalf the Grey, continue their quest to reclaim the Lonely Mountain, their homeland, from the dragon Smaug. Thorin and his company are being pursued by Azog and his Orc party following the events of the previous film.

**What chapter of The Hobbit is Smaug in?** Smaug in the Mountain Until this point, the dragon has been a background figure to be dealt with eventually; here in Chapter 12, the dragon becomes the most real obstacle the dwarves and Bilbo have yet faced.

**What does Smaug represent in The Hobbit?** He represents the wrongful impulse to hoard, to accumulate beyond what one can use and to refuse to share with others. In revenge for the theft of the Arkenstone, he destroys the town of Lake-town (Esgaroth).

**How old is Thorin in Desolation of Smaug?** References. ? Thorin is one hundred and forty-four years Bilbo's senior. Given that Bilbo was fifty when he met Thorin, the dwarf king is 195 in the books.

### **What scenes are added in Desolation of Smaug?**

**What does the name Smaug mean?** According to Tolkien, (who was born in the Free State where these animals occur) the name Smaug is "the past tense of the primitive Germanic verb smeugan, meaning "to squeeze through a hole", making it a doubly appropriate name for dragon-like lizards that live in burrows or rock cracks.

**Why is it called the desolation of smaug?** The Desolation of the Dragon, also known as the Desolation of Smaug, was a bleak and barren desert around Erebor and Dale, charred and blackened by the burning breath of Smaug in the days of the dragon Smaug.

**Who kills Smaug in the books?** The thrush told Bard the Bowman of Smaug's one weak spot, a bare patch on the dragon's belly. With his last arrow, Bard killed Smaug by shooting into this place.

**How old is Bilbo in Desolation of Smaug?** Bilbo is 50 years old at the beginning of The Hobbit. He has his 51st birthday when he and the dwarves are being feted at Laketown on the last leg of their journey to the Lonely Mountain. (The narrator tells us that Bilbo only realized later that it was his birthday due to all of the other festivities.)

**What does Smaug tell Bilbo?** Smaug, says he doesn't understand Bilbo but ate fourteen ponies that smelled of dwarf, and warns Bilbo not to associate with dwarves, since they'll surely kill him after Bilbo does their dirty work for them.

**What chapter was Smaug killed?** In Chapter 14, Smaug has fled his lair and is out to wreak vengeance on the humans in Lake Town. He is shot down by an archer named Bard, but not before the dragon destroys the entire town. The men of Lake Town decide to head to the mountain to get some of the treasure Smaug left behind.

**What was Smaug's famous line?** Smaug: The King Under the Mountain is dead! I took his throne, I ate his people like a wolf among sheep! I kill where I wish, WHEN I wish! My armour is iron, no blade can pierce me!

**Is Smaug good or bad?** The Hobbit dragon is the most famous of Tolkien's dragons. The name Smaug, is derived from a Germanic word that means "to

squeeze through a hole." He is a large red dragon, and he is considered the last 'great' dragon of the Third Age. He is evil and very strong, as evidenced by his ability to conquer two cities.

**Where is Smaug's weak spot?** He was then able to kill Smaug by firing the Black Arrow directly into the vulnerable spot of his left breast.

**Why is Thorin's last name Oakenshield?** Thorin's name is one from the Dvergatal. It means "Bold". The epithet "Oakenshield" also comes from the Dvergatal. Eikinskjaldi means "Oakenshield", and it has long been considered the name of a Dwarf.

**How old is Kíli in human years?** That fits well with Tolkien saying that all the dwarves (besides Fíli and Kíli) were at least 132 years old (of course Ori is an exception in the movie). Fíli and Kíli stay the same to me (82 and 77 respectively). I like to think Ori is older than Fíli and Kíli, but the Great Goblin just thought he was younger looking.

**How old was Ori when he died?**

**What is The Desolation of Smaug based on?** The Hobbit: The Desolation of Smaug is a 2013 epic high fantasy adventure film directed by Peter Jackson from a screenplay by Fran Walsh, Philippa Boyens, Jackson, and Guillermo del Toro, based on the 1937 novel The Hobbit by J. R. R. Tolkien.

**Who is the necromancer in The Desolation of Smaug?** Sauron is the overarching antagonist of the trilogy, given that he made a pact with Smaug and is Azog's boss and leader. In each two (and possibly three) films of the trilogy, Sauron was credited in the end credits as his nickname "Necromancer".

**Are there spiders in The Desolation of Smaug?** The Hobbit film trilogy Radagast later tells Gandalf that they came from Dol Guldur. In The Desolation of Smaug, the spiders capture the Dwarves in Mirkwood. As in the book, the spiders are capable of speech that Bilbo can understand when he is wearing the One Ring.

**Where is Smaug at the end of Chapter 14?** Bard then takes his black arrow, which had been passed down to him from his father, and uses it to shoot Smaug in the weak point on his breast and kill him. Smaug dies, having already destroyed much of

the city of Esgaroth.

**Where is Smaug in chapter 13?** In Chapter 13 of J. R. R. Tolkien's *The Hobbit*, Bilbo Baggins and the dwarves are trapped in the Lonely Mountain after Smaug's rampage in the previous chapter smashes the entrance. The group waits for hours to hear if Smaug is still in the cave, but they are unaware that the dragon has left to confront Lake Town.

**Where does the desolation of Smaug end?** Smaug flies off towards Lake-town, and the film ends with him uttering "I am Fire, I am..... Death!" as he soars towards the unsuspecting town, leaving Bilbo and the others in horror at what they have unleashed.

**What is chapter 17 in *The Hobbit*?** Chapter 17 of J.R.R. Tolkien's *The Hobbit* is a doozy. Bard and the Elvenking try to negotiate to return the Arkenstone to a treasure-mad Thorin, but he makes plans to double-cross them. His cousin Dain shows up with some hill-dwarves, and they make to attack the humans and elves.
