**What is jail in Japan like?** The prison imposes a strict, military-like discipline. The inmates wear prison-issue uniforms and there is a prescribed way to walk, talk, eat, sit and sleep. Doing things the wrong way or at the wrong time will be punished.

**Who runs the prisons in Japan?** It is intended to resocialize, reform, rehabilitate and punish offenders. The penal system is operated by the Correction Bureau of the Ministry of Justice.

---

**Does Japan focus on rehabilitation?** Although the Japanese and American systems are similar, Japan's system is distinctive for the efficiency of its prison labor, the direct use of the community in corrections, and the total goal of rehabilitation from start to finish.

**What is the weakest link in 5 pillars of criminal justice system?** Correction—reforms and rehabilitates the offenders. This is known as the weakest pillar in CJS.

**What are the pillar of justice?** It appears that we now have four pillars, or axes of justice: the state, the offender, the victim and the public.

**How many pillars does Philippine justice system have?** The Philippine criminal justice system is composed of five parts or pillars, namely, law enforcement, prosecution, judiciary, penology, and the community.

**Who is known the mother of all criminals?** ADA JUKE is known to anthropologists as the "mother of criminals." From her there were directly descended one thousand two hundred persons. Of these, one thousand were criminals, paupers, inebriates, insane, or on the streets.

**What is a famous name in criminology?** In the literature of criminology, such names as Cesare Beccaria (1738-1794), Jeremy Bentham (1748-1832), Alexander Maconochie (1787-1860), V. John Haviland (1792-1852), Cesare Lombroso (1835-1909), Gabriel Tarde (1843-1904), Raffaele Garofalo (1852-1934), and Enrico Ferri (1856- 1929)' are familiar.

**What are the 5 types of criminals according to Cesare Lombroso?** Besides the "born criminal", Lombroso also described "criminaloids", or occasional criminals, criminals by passion, moral imbeciles, and criminal epileptics.

**Which of the pillars of Philippine criminal justice is the prime mover?** Law Enforcement. It is considered as the prime mover of the Criminal Justice System.

**What is institutional correction in the Philippines?** CORRECTION – is that branch of the administration of criminal justice system charged with the responsibility for the custody, supervision, and rehabilitation of the convicted offender.

**How does community involvement serve as a pillar of the criminal justice system in the Philippines?** It is the unique feature of the Philippine Criminal Justice System to have the Community as its fifth pillar. The community in this context refers to the elements that are mobilized and energized to help authorities in effectively addressing the law and order concern of the citizenry.

### **Spotlight on English Santillana USA: Empowering English Language Learners**

English Santillana USA, a leading provider of English language learning solutions, empowers students to achieve their language goals through innovative and engaging programs. Here's a Q&A to shed light on their offerings:

#### **Q: What is English Santillana USA's mission?**

**A:** English Santillana USA is committed to bridging language barriers and fostering academic success for English language learners (ELLs). They offer comprehensive solutions that support ELLs in acquiring English proficiency and developing 21st-century skills.

#### **Q: What programs does English Santillana USA provide?**

**A:** English Santillana USA offers a range of programs tailored to the needs of ELLs, including:

- **Spotlight on English:** A comprehensive English language development program for K-5 students
- **Explorations:** An English as a second language (ESL) program for grades 6-8
- **Ventures:** An integrated English language and content program for high school students

#### **Q: What makes Spotlight on English unique?**

**A:** Spotlight on English is a research-based program that combines explicit English language instruction with engaging content. It features:

- A structured approach that builds a strong foundation in phonemic awareness, phonics, fluency, vocabulary, and comprehension
- Immersive experiences that expose students to authentic English through stories, videos, and songs
- Hands-on activities that promote active learning and language practice

**Q: How does English Santillana USA support teachers?**

**A:** English Santillana USA provides teachers with a wealth of resources, including:

- Professional development and training
- Access to online learning platforms
- Lesson plans, teaching materials, and assessments
- Collaboration opportunities with other educators

**Q: What are the benefits of using English Santillana USA programs?**

**A:** English Santillana USA programs offer numerous benefits for ELLs:

- Improved English proficiency
- Enhanced academic performance
- Increased confidence and motivation
- Preparation for success in higher education and the workforce

**What tune should an alto sax be in?** - Alto Saxophone: Should produce a concert A on the mouthpiece alone. - Tenor Saxophone: Should produce a concert G on the mouthpiece alone. - Bari Saxophone: Should produce a concert D on the mouthpiece alone.

**What is the transposition for alto sax?** For saxophone players, the most common transpositions are Bb (tenor and soprano) and Eb (alto and baritone) One of the easiest ways to grasp the concept is to play a “C” on your saxophone. The note that SOUNDS is the concert pitch. The table below shows which concert pitch sounds when “C” is played on your saxophone.

**Did John Coltrane ever play alto sax?** Instruments. Coltrane started out on alto saxophone, but in 1947, when he joined King Kolax's band, he switched to tenor saxophone, the instrument he became known for playing. In the early 1960s, during his contract with Atlantic, he also played soprano saxophone.

**What is the correct embouchure for alto sax?**

**Can alto sax play high G?** Play high G on Alto Saxophone The trick is to try to not squeeze the high G with the mouthpiece but rather relax your jaw a bit which can seem a bit counter intuitive but it does work. This is referred to as the saxophone embouchure which basically means “how you form your mouth around the saxophone mouthpiece”.

**Is alto sax high?** The alto saxophone is a transposing instrument, with pitches sounding a major sixth lower than written. In terms of concert pitches, the alto saxophone's range is from concert D $\frac{2}{3}$  (the D $\frac{2}{3}$  below middle C—see Scientific pitch notation) to concert A $\frac{5}{4}$  (or A5 on altos with a high F $\frac{2}{3}$  key).

**What note to tune alto sax?** Tenor saxophones are tuned to B $\frac{2}{3}$ , and alto saxophones are tuned to E $\frac{2}{3}$ , but when playing the same note on a score, the fingerings are the same.

**Is alto sax for jazz?** Alto Saxophone is very much the default for beginners, the alto sax is a versatile instrument, being the lead voice in a lot of music from pop, jazz, funk, and classical music. Compared with the tenor it is smaller & lighter, higher in pitch, has less finger stretching, and is cheaper to buy or rent.

**Can alto sax play piano music?** If the saxophone and the piano play the same sheet music, the notes will not be correct between the two instruments. That's because the piano is in the key of C and the saxophone is not.

**Who is the most famous alto sax player?** Charlie Parker A.K.A “The Bird” Let's get the obvious out of the way first since this list could not be possible without him. I'm talking about Charlie Parker, of course. As far as the saxophone goes and lots of other instruments for that matter, the Bird is the father of bebop.

**What sax is higher than alto?**

---

**Did Charlie Parker play alto sax?** Charlie Parker was born August 29, 1920, in Kansas City. By the time he was 15, the alto saxophone was his instrument of choice. Parker dropped out of school that year to pursue a full time musical career.

**Is alto sax treble or bass?** Saxophone music is thus always written in treble clef, but they don't sound like a piano treble clef when played. Sopraninos, altos, baritones and contrabass saxophones are in E $\flat$ , meaning that their C is a piano E $\flat$ . Sopranillos, sopranos, tenors and bass saxophones are in B $\flat$ .

**How do you practice alto sax quietly?**

**Does alto sax mouthpiece matter?** Whatever decision you make with your overall tone, the depth of tone any good mouthpiece will give you will feel dramatic. Stock plastic mouthpieces typically have a flat, one-dimensional tone. With a good mouthpiece, the overtones and tonal colour surrounding each note you play will drastically elevate your sound.

**Why can't i play high e on alto sax?** To finger the high E note on saxophone you push down the octave key (left thumb) and the nr 1 and 2 side keys (left hand palm). That's the D and Eb palm keys. In addition to that you need to push down the upper side key on your saxophone with your right hand.

**Is tenor sax deeper than alto?** Tenor Saxophone The tenor saxes are bigger than the alto but are another really popular choice for a beginner sax player. Tenor saxophones have larger reeds compared to the alto saxophone. The tenor sax has a full, deep, and rich sound, while the alto sax has a higher-pitched sound. **JOIN SAX SCHOOL TODAY!**

**Why can't I play G on alto sax?**

**Which sax is best?** The Alto Saxophone is the #1 type in terms of worldwide sales. It has become very popular due to the size and versatility of tone. The Alto is used in all types of musical scenarios, from jazz to classical. It has a higher 'voice' compared to the Tenor, but is not as high pitched as the Soprano.

**Is alto sax hard to learn?** It's not the easiest instrument to learn, but with dedication and practice, it's achievable for beginners and intermediate players. Take lessons

from reputable sources like Sax School and put in consistent effort to make progress on your saxophone journey.

**Why are alto saxophones so expensive?** The cost of saxophones is not just about the instrument itself. It's also influenced by several factors, such as brand reputation, materials used in construction, accessories like cases and mouthpieces, condition (new or used), and manufacturer warranty services.

**Is alto sax E flat?** Soprano, alto, baritone, and contrabass saxophones are in Eb. Soprano, tenor, and bass saxophones are in Bb, meaning that when you play C on them, you hear Bb.

**How to fix a flat sax?**

**Can alto sax play chords?** Most instruments (e.g., saxophone, trumpet, trombone, human voice) can only play one note at a time and, therefore, can't play chords; these are referred to as single-note instruments.

**What is the best note to tune an alto sax?** Once warmed up, make sure your alto or tenor sax is in tune overall. The chromatic tuner will show your tuning on any note, but it's best to start by checking the notes A and F# in both your low register and upper register (with the octave key on).

**How do I get a good tone on my alto sax?**

**What key is an alto sax in?** The Alto Saxophone is pitched in E?. We say they are "pitched" in the key of E? because an E? on the instrument sounds the same pitch as an actual C (aka concert pitch) as you would play on a piano. Eb - when they play a C major scale on the saxophone, it corresponds to a piano's Eb Major scale.

**Is alto sax treble or bass?** Saxophone music is thus always written in treble clef, but they don't sound like a piano treble clef when played. Sopraninos, altos, baritones and contrabass saxophones are in E?, meaning that their C is a piano E?. Sopranillos, sopranos, tenors and bass saxophones are in B?.

**Is alto sax easier than flute?** While saxes do have a slight sensitivity to the way you breathe, flutes require a much greater amount of finesse. Whereas the saxophone can cover up a lot of your mistakes, the flute will give you away even if

your breath is only slightly off.

**Is alto or tenor sax harder?** If you can't decide, I suggest you opt for the new alto saxophone, just because it's a little bit easier to manage. It's a great way to develop your skills because the mouthpiece is a nice, easy size that suits everybody.

**Is tenor or alto sax louder?** In general, the tenor sax is considered to be a bit louder than the alto sax, but both are popular choices for a wide range of music genres. While the alto sax may be slightly easier to learn, both instruments require dedicated practice and lessons to master.

**What tune is alto sax?** Tenor saxophones are tuned to B $\flat$ , and alto saxophones are tuned to E $\flat$ , but when playing the same note on a score, the fingerings are the same.

**Can you teach yourself alto sax?** It is possible to teach yourself Saxophone and the good news is that the saxophone is not hard to learn either. Simply by focusing on the fundamentals for the first few weeks you will start to develop a better sax tone. The key is to be consistent and practice your saxophone as often as you can.

**Is alto sax low?** The alto saxophone is pitched in the middle range of the saxophone family. It has a range extending from approximately low D $\flat$ 3 to high A5 on the piano, though skilled players can extend the range further.

**Is alto sax hard to learn?** It's not the easiest instrument to learn, but with dedication and practice, it's achievable for beginners and intermediate players. Take lessons from reputable sources like Sax School and put in consistent effort to make progress on your saxophone journey.

**How high can alto sax go?** Alto. The range of the alto saxophone is from concert D $\flat$ 3 (the D $\flat$  below middle C—see Scientific pitch notation) to concert A $\flat$ 5 (or A5 on altos with a high F $\flat$  key). As with most types of saxophones, the standard written range is B $\flat$ 3 to F6 (or F $\flat$ 6). Above that, the altissimo register begins at F $\flat$  and extends upwards.

**Which is bigger, tenor or alto sax?** Size. The most obvious difference between the two instruments is their size. The tenor sax is slightly larger and heavier, while the alto sax is smaller, lighter, and more easily managed than a tenor. The neck of an

alto saxophone also comes up slightly at the end, while the neck of a tenor bends slightly down.

**Is alto sax for jazz?** Alto Saxophone is very much the default for beginners, the alto sax is a versatile instrument, being the lead voice in a lot of music from pop, jazz, funk, and classical music. Compared with the tenor it is smaller & lighter, higher in pitch, has less finger stretching, and is cheaper to buy or rent.

**Can alto sax play middle C?** Play middle C note on Alto Saxophone Altered fingering: You can play middle C using the first main key in your left hand (B key) together with the middle side key in your right hand.

**Is alto sax higher than clarinet?** Regarding note range and power, the clarinet's range is more expanded than the saxophone, with the former achieving almost four octaves while the latter is about two and a half octaves. This is the exact opposite when it comes to the instruments power with the saxophone being the instrument that can play much louder.

**Which god is in Khajuraho?** About six of these temples at Khajuraho have Lord Shiva as the main idol, eight are dedicated to Lord Vishnu, one each to Lord Ganesha and the Sun God, while three are dedicated to the Jain tirthankaras (saints).
