**Q: How can we cultivate local senses of place in a multicentered society?** \_\_\_\_\_

A: Cultivating local senses of place requires engaging with the unique characteristics and stories of a place. This can be done through community-based art projects, historical preservation, and storytelling. It also involves recognizing and valuing the perspectives of marginalized groups who have historically been excluded from shaping the identity of a place.

**Q: What are the challenges to preserving local senses of place?**
