How to interpret crossword hints? Take Note of Parts of Speech Crossword clues often challenge players by using words with multiple meanings or changing a word's part of speech. If a crossword clue hints at a person, place, or thing, the answer will be a noun. If it hints at an action word, the answer will be a verb.

How do crossword puzzle clues work? For those new to the game, we reveal the secret in a nutshell: The clues each have two parts. One part is a normal definition of the answer; the other is an additional hint using wordplay. Having two hints in each clue might seem a big giveaway to solvers.

How do you write a clue for a crossword puzzle? Include both long and short words... but don't have many words under four letters. Try and choose words which include lots of 'often used' letters... such as the vowels A, E, I, O, U plus S, T, L, M, N... which will be easier to fit together. Avoid too many words that use Z, Q and X for the same reason!
