**What are the criticism of Derrida?** Critics of Derrida have been often accused of having mistranslated the phrase in French to suggest he had written "Il n'y a rien en dehors du texte" ("There is nothing outside the text") and of having widely disseminated this translation to make it appear that Derrida is suggesting that nothing exists but words.

**What is the objection of poetry by Plato?** Plato objected poetry on the basis of education, by saying that it cultivates evil habits and not practical. But it is not so about all the poems or all the arts. As at that time Homer's epics were the part of studies and in them heroes were lusty, cunning and cruel dealing only with war and other things.

**What is the idea of difference in Derrida's philosophy?** Saussure, Derrida coined the term *différance*, meaning both a difference and an act of deferring, to characterize the way in which linguistic meaning is created rather than given.
