

# THE PUNISHMENT LIST A COLLECTION OF SPANKING STORIES

## [Download Complete File](#)

**What type of punishment is corporal punishment?** Methods of corporal punishment include hitting, slapping, spanking, shaking, punching, kicking, choking, electric shock, confinement in small spaces, excessive exercise, and fixed postures for long periods. Instruments used in corporal punishment include leather straps, switches, baseball bats, and fists.

**What are the studies on children who were spanked?** Key points. Numerous studies have found that physical punishment increases the risk of broad and enduring negative developmental outcomes. No study has found that physical punishment enhances developmental health. Most child physical abuse occurs in the context of punishment.

**What is the legal definition of corporal punishment?** Corporal punishment means the intentional infliction of physical pain by any means for the purpose of punishment, correction, discipline, instruction, or any other reason.

**What is the history of corporal punishment?** Corporal punishment can be tracked back to the Middle Ages when it was handed out as punishment for some crimes. The very start of corporal punishment is unclear, but the idea that "sparing the rod spoils the child" dates back to biblical times. Scourging, or whipping, and beating with sticks were common practices.

**Is spanking considered abuse?** Physical abuse is generally defined as "any non-accidental physical injury." However, most states do allow parents to use spanking as a means of discipline and paddling students is still allowed in public schools in 19 states. Spanking is defined as using an open hand to strike a child's buttocks.

**What states still allow paddling in schools?** Corporal punishment is still used in schools to a significant (though declining) extent in some public schools in Alabama, Arkansas, Georgia, Louisiana, Mississippi, Oklahoma, Tennessee, and Texas. The most recent state to outlaw public school corporal punishment was Idaho in July 2023.

**Do spanked kids behave better?** While spanking may create a sense of fear in your child in the moment, it won't improve behavior over the long term.

**What happens to the brain when spanked?** This suggests that spanking changes a child's neural response to emotional cues and makes them more vigilant for potential threats, including emotions that indicate a possible threat. The study's authors noted that similar findings have been observed among children who experienced abuse or trauma.

**At what age should a child not be spanked?** But as a general guideline, I would suggest that most corporal punishment be finished prior to the first grade (six years old). It should taper off from there and stop when the child is between the ages of ten and twelve.

**What is corporal punishment for adults?** When it is inflicted on adults, it may be inflicted on prisoners and slaves, and can involve methods such as whipping with a belt or a horsewhip. Physical punishments for crimes or injuries, including floggings, brandings and even mutilations, were practised in most civilizations since ancient times.

**What is an example of excessive corporal punishment?** In determining what factors may be considered excessive, courts have found that corporal punishment that uses items like a belt or wooden spoon, or leaves bruises and/or welts are more likely to be considered excessive than those with the hand only.

**Is collective punishment a crime?** International law posits that no person may be punished for acts that he or she did not commit. It ensures that the collective punishment of a group of persons for a crime committed by an individual is forbidden... This is one of the fundamental guarantees established by the Geneva Conventions and their protocols.

**What are 5 examples of corporal punishment?** Corporal punishments include flogging, beating, branding, mutilation, blinding, and the use of the stock and pillory. In a broad sense, the term also denotes the physical disciplining of children in the schools and at home.

**What was the birch punishment?** A milder alternative ordered by judges was the birch, a yard-long bundle of twigs, soaked” in water and whacked across bare buttocks. Four years ago the British Labor government abolished flogging.

**What was the most common form of corporal punishment?** spanking (one of the most common methods of physical punishment) slapping, pinching, or pulling. hitting with an object, such as a paddle, belt, hairbrush, whip, or stick.

**What happens when you are spanked?** There are also many adverse physical, mental, and emotional effects correlated with spanking and other forms of corporal punishment, including various physical injuries, increased anxiety, depression, and antisocial behavior.

**Is being spanked traumatic?** The body stores the experience as trauma that may last for years beyond the actual spanking. Further, it sets up the child for future and ongoing trauma – research shows spanking children is as serious as other adverse childhood experiences for associated behavior problems and future trauma risk.

**Do children remember being spanked?** Children remember being spanked, and as adults these memories are very strong and lead to feelings of significant anger and betrayal.

**How do you give a school paddling?** In the great majority of cases, the paddle is aimed at the recipient's buttocks. Less commonly, the back of the thighs might also be targeted. Paddles for use in schools are made of wood, or occasionally plastic. Paddles used for school punishments may be roughly hewn from commonly available wood.

**Is it illegal to whip your child with a belt in Texas?** What is the Reasonable Discipline Defense? Children suffering from malnourishment, broken bones, and head injuries are often obvious cases of child abuse. But what about spanking a child with a belt for misbehaving or popping them in the mouth for cursing? The fact

is that Texas allows for reasonable discipline.

**Can teachers say no to the bathroom?** Bathroom rights might be something one just assumes, but according to California law, there are no guidelines that decide whether teachers must allow bathroom usage, and CHS has a lack of a general policy on whether a student can leave the classroom to use the restroom.

**Is corporal punishment considered assault?** While corporal punishment (spanking) is not illegal under California law, the state's definition of child abuse makes it a crime if the punishment is considered cruel and excessive or if injury or a "traumatic condition" results from it.

**What is group punishment called?** Collective punishment is a punishment or sanction imposed on a group or whole community for acts allegedly perpetrated by a member of that group, which could be an ethnic or political group, or just the family, friends and neighbors of the perpetrator.

**Is corporal punishment negative punishment?** Consequences. Corporal punishment triggers harmful psychological and physiological responses. Children not only experience pain, sadness, fear, anger, shame and guilt, but feeling threatened also leads to physiological stress and the activation of neural pathways that support dealing with danger.

**What is another word for corporal punishment?** Domestic corporal punishment (i.e. the punishment of children by their parents) is often referred to colloquially as "spanking", "smacking", or "slapping".
