How did Thomas and Minho escape the Grievers? Minho and Thomas run on, leading the Grievers to the Cliff, a wide-open space at the edge of the Maze. At first, Thomas thinks it's a way out, then realizes that it's just an abyss. Thomas and Minho wait for the Grievers to approach, then quickly jump to the side.

How did Newt get infected if he is immune? Newt gets scratched by one of the Cranks on his right forearm, consequently infecting him with the virus.

Why are rats scarier than mice? Rats can be visually scarier due to their larger size and can be more aggressive than mice. Rats are also very smart, and while you wouldn't think that makes them worse, it does mean that it takes longer to remove a rat infestation from a structure.

Why do rats hang their heads? Head Hanging It can be a symptom of a heart or respiratory problem. Also look out for deep irregular breathing and other general signs of illness. Some rats do this regardless of health so observe the rat over a few days before taking them along to the vet, unless other signs lead you to suspect something is up.

Can a rat solve a maze? Rats who were already familiar with the maze learned to solve the maze more quickly and achieved better scores than rats who had never been given exploration time. Their proficiency indicated that the rats had generated a cognitive map of the maze during their explorations (Tolman and Honzik 1930).

What happens in the scary maze game? Beating all the levels rewards you with a win, touching any of the black walls will cause you to die, prompted with a jump scare. If the player takes too long to complete the maze (around 35 seconds) the player will get jumpscared and killed automatically, regardless of how much of the maze they completed.

What happens in the maze in Harry Potter? The first Champion to successfully navigate the maze and reach the Cup would be declared the winner. During the task, Cedric encountered a Blast-Ended Skrewt, which he barely escaped from. Harry had to deal with a Boggart in the form of a Dementor, and overcame an odd golden mist which turned things upside-down.

What happens in the maze at night? At dusk, the leaders, called Keepers, bring Ben from prison and push him into the Maze for attempting to murder Thomas. Ben shrieks and howls in terror as the walls close on him. The next day, Minho and Alby go into the Maze to find the Griever, who, it turns out, was only pretending to be dead.

What happens in maze Runner 4? Mark (book 4) is the main protagonist of The Kill Order. He survived the catastrophic solar flares and escaped to the Appalachians. He is Trina's love interest and committed suicide by telling Alec to fly the Berg into the building, killing them all, except Deedee, after succumbing to the Flare.

The Art of Whiskey: A Guide to Making Your Own Spirits

Whiskey, a distilled alcoholic beverage made from fermented grain, holds a special place in the world of spirits. Its distinct flavor and aroma have captivated enthusiasts for centuries. If you're curious about the intricacies of whiskey-making, here's a Q&A guide to help you get started:

1. What's the Difference Between Whiskey, Scotch, and Bourbon?

- **Whiskey:** A general term referring to any distilled spirit made from grain.
- **Scotch:** A type of whiskey produced in Scotland, typically using malted barley and aged for a minimum of three years.
- **Bourbon:** An American whiskey made primarily from corn and aged in charred oak barrels, giving it a distinctive caramel flavor.

2. How to Make Whiskey from Scratch:

- **Fermentation:** Grain (e.g., corn, rye, barley) is milled and mixed with water to create a mash. Yeast is added to convert the sugars into alcohol.
- **Distillation:** The fermented mash is heated in a still, separating the alcohol (vapor) from the remaining liquid (wash).
- **Maturation:** The whiskey is aged in oak barrels, which contribute flavor and color. Different types of oak and aging time affect the whiskey's characteristics.

3. How to Distill Liqueur:

- **Maceration:** Fruit, herbs, or spices are soaked in high-proof alcohol to extract flavors.

- **Distillation:** The macerated mixture is distilled, removing impurities and creating a clear liqueur.
- **Sweetening:** Sugar or other sweeteners are added to balance the flavor and produce a sweet or semi-sweet liqueur.

4. How to Brew Beer:

- **Mashing:** Crushed barley (malt) is mixed with hot water to convert starches into fermentable sugars.
- **Lautering:** The sweet liquid (wort) is separated from the grain husks.
- **Boiling and Hopping:** The wort is boiled, and hops are added to impart bitterness and aroma.
- **Fermentation:** Yeast is added to convert the sugars into alcohol and carbon dioxide.
- **Maturation:** The beer is allowed to age for several weeks or months to develop its flavor and aroma.

5. Additional Tips for Aspiring Distillers:

- Start with high-quality ingredients.
- Pay attention to the temperature during fermentation and distillation.
- Experiment with different types of grains, oak barrels, and aging times.
- Be patient; making whiskey takes time and can't be rushed.
- Enjoy the process and the satisfaction of creating your own spirits.

The Dip: A Little Book That Teaches You When to Quit and Stick, by Seth Godin

Question 1: What is the main idea of "The Dip"?

Answer: "The Dip" argues that most successful ventures go through a challenging phase, known as "the dip." Godin believes that it's crucial to recognize this dip and decide whether to persist through it or abandon the endeavor.

Question 2: Why is it important to know when to quit?

Answer: Quitting is not always a sign of failure. Godin emphasizes that there may be times when it's better to abandon an effort that is not leading to desired results. By understanding the dip, you can make informed decisions about whether to invest

further or redirect your efforts.

Question 3: How can you identify the dip?

Answer: The dip is characterized by a drop in motivation, productivity, and rewards. It's a period of intense difficulty that can cause many people to give up. Godin suggests that the dip typically occurs when the initial excitement of a new venture wanes and the hard work begins.

Question 4: What are the benefits of persisting through the dip?

Answer: Those who persevere through the dip often emerge as leaders in their field. Godin argues that successful people are those who are willing to overcome challenges and endure the dips. By staying the course, you can build a solid foundation for long-term success.

Question 5: How can you apply the principles of "The Dip" to your own life?

Answer: To apply the concepts of "The Dip," consider the following:

- Identify your goals and whether they are worth the potential dips.
- Recognize the signs of the dip and don't panic.
- Seek support from mentors or peers who can help you navigate the challenges.
- Remember that the dip is temporary and with determination, you can emerge stronger.
