**What is the quote by Pastor Chris Oyakhilome?** Until you prevail with God, you cannot prevail with men; your victory has to be spiritual first, before it is physical. The challenge may not go away when you pray, and when it doesn't go away, it simply means God believes that He has trained you enough to face it and win.

**What is the healing message of Pastor Chris Oyakhilome?** Don't give in to sickness. Christ already consummated the plan for your divine health; So, it doesn't matter what the health condition is; place your hand on it and say, "In the Name of Jesus, I refuse to accommodate this infirmity." Whatever part of your body the challenge is, tell it off in the Name of Jesus.

**What is the purpose of prayer by pastor Chris Oyakhilome?** There're higher purposes of prayer. One of them is fellowshiping with the Father through the Spirit. Another higher purpose of prayer is the privilege to exercise our authority in Christ. There, you take your place of authority and cause things to happen within the ambits of the power given to you by Christ Jesus.

**What is the meaning of Christmas by pastor Chris Oyakhilome?** But have you ever asked yourself what "C-H-R-I-S-T-M-A-S" means? "C" means "Christ has come!" Christ is born and is here now! "H" stands for "Hope." We're at rest now, because Christ has come, and our hope for a glorious life has been fulfilled.

**What is salvation prayer pastor Chris Oyakhilome?** "Oh Lord God, I come to you in the name of Jesus Christ. Your word says, "...that whosoever shall call upon the name of the Lord shall be saved". I believe in Jesus Christ, the Son of the living God. I believe Jesus died for me and that he was buried and raised from the dead.

**What is righteousness by pastor chris oyakhilome?** Righteousness is the nature of God in you, producing in you the rightness of God: the ability to do right and fulfil the will of the father. God is always right; it's His nature to be right. This nature of righteousness is at work in us.

**What is the power of intercession by Pastor Chris?** God has given you authority to effect changes in your world through intercessory prayer. He's in pursuit of having all men saved; and He wants you to keep on praying until you have the note of victory in your spirit.

**What is faith by pastor Chris Oyakhilome?** The effect of righteousness is faith. This is what the word of God does for you. You come to the throne of grace and obtain mercy. This is a gift from God you don't work for it.

**What are the three kinds of meditation by pastor Chris Oyakhilome?** There're three levels of meditation: you ponder, you mutter, and you roar. You think through the Word, mutter or speak it under your breath, and then you voice it. When it gets to coming out of your mouth boldly, you're writing it on your heart—on the tables of your heart.

**What is grace according to pastor Chris Oyakhilome?** Grace is the glory of God working in a man's spirit and it beautifies. Only the man with grace recognizes grace. Never try to work against grace in a man's life; one who does it fights against the Source of Grace; Deity.

**Why must a pastor pray?** Preaching does not work without prayer. In fact, God never intended for us to separate prayer from preaching. Paul often asked for prayer from the churches in order that his preaching might be bold and effective (Eph. 6:19; Col.

**What is the fact about Pastor Chris Oyakhilome?** Chris Oyakhilome was born on 7 December 1963 to Tim and Angelina Oyakhilome in Edo State, Nigeria. He is the third child of 7 children and the first of two sons. He has five sisters and all of his siblings play active roles in Loveworld and Christ Embassy.

**What is worship Pastor Chris Oyakhilome?** Worship is the recognition and appreciation of the reality, blessings, character and greatness of God. This

recognition and appreciation, we express in prayer, sacrifice and service.

**What is the church by Pastor Chris Oyakhilome?** Christ Embassy (also known as LoveWorld Incorporated or Believers' Loveworld) is a megachurch and Christian denomination founded in 1987 by Chris Oyakhilome who hails from Edo State, Nigeria.

**What is the spiritual message of Christmas?** It is an opportunity to pause and give thanks for the love, hope and joy found in Jesus – our Saviour and friend. As we exchange gifts with loved ones, it is out of remembrance of the gift God gave us in Jesus. The gift that we are loved, are never alone and can have hope for the future.

### **Solutions to R.S. Khurmi's Strength of Materials**

R.S. Khurmi's Strength of Materials is a seminal textbook widely used in engineering and technical education. It provides a comprehensive understanding of the principles and applications of strength of materials, covering various topics such as stress, strain, elasticity, and bending moments. However, students often face challenges in solving complex problems and understanding the concepts thoroughly.

#### **Q1: Explain the concept of stress concentration.**

**A:** Stress concentration occurs when stress is concentrated at a specific region of a structure, typically at areas where there are sudden changes in geometry or discontinuities. This can lead to localized failure even when the overall stress level is within acceptable limits.

#### **Q2: How to determine the bending moment in a beam subjected to distributed load?**

**A:** The bending moment in a beam can be determined using the formula  $M = (w * L^2) / 8$ , where  $w$  is the distributed load,  $L$  is the length of the beam, and  $M$  is the bending moment.

#### **Q3: What is the difference between shear stress and normal stress?**

**A:** Shear stress is the stress that acts parallel to the surface of a material, while normal stress is the stress that acts perpendicular to the surface. Shear stress is

caused by twisting or sliding forces, while normal stress is caused by tension or compression.

**Q4: How to calculate the deflection of a beam under a concentrated load?**

**A:** The deflection of a beam under a concentrated load can be determined using the formula  $y = (P L^3) / (48 E * I)$ , where P is the concentrated load, L is the length of the beam, E is the modulus of elasticity of the beam, and I is the area moment of inertia of the beam.

**Q5: Explain the concept of column buckling.**

**A:** Column buckling occurs when a slender column subjected to axial compression fails by bending sideways. The critical buckling load depends on the column's length, cross-sectional area, and material properties.

**Who is the father of engineering physics?** Isaac Newton: The Father of Modern Physics Sir Isaac Newton, associated with Cambridge University as a physicist and mathematician, became famous after propounding three laws of motion that established a connection between objects and motion.

**Which is best engineering physics?**

**What is an engineering physics course?** What is engineering physics? Engineering Physics prepares students to apply physics to tackle 21st century engineering challenges, and to apply engineering to address 21st century questions in physics.

**Will there be physics in engineering?** Engineering is basically physics applied to create something more practical. It can be mechanical, electrical, civil, computer, electronics, space, etc., but they're all basically governed by physics. There's no way you would solve complex engineering problems without understanding the physics behind them.

**Is Engineering Physics worth it?** An Engineering Physics degree opens up exciting and diverse career opportunities. Graduates possess a unique skill set that allows them to thrive in various industries.

**Who are the two fathers of physics?** Newton, Galileo and Einstein have all been called "Fathers of Modern Physics." Newton was called this because of his famous law of motion and gravitation, Galileo for his role in the scientific revolution and his contributions on observational astronomy, and Einstein for his groundbreaking theory of relativity.
