**Who owns Metcalf and Eddy?** In 2002, AECOM acquired Metcalf & Eddy, recognizing the invaluable expertise and reputation the firm brought to the table. This strategic union brought together two powerhouses in infrastructure and environmental engineering, paving the way for a synergy of talent, resources, and capabilities.

**What was AECOM called before?** AECOM traces its origins to Kentucky-based Ashland Oil & Refining Company, which in turn grew out of Swiss Drilling Company, founded in Oklahoma in 1910 by J. Fred Miles.

**What is the life expectancy of a wastewater treatment plant?** However, the average wastewater treatment plant life expectancy is 40 to 50 years, and treatment equipment typically lasts 15 to 20 years. As a result, a majority of Publicly Owned Treatment Works (POTWs) established in the early 1970s require improvement, repair or replacement to extend their lifetimes.

**How much electricity does a wastewater treatment plant use?** Across the country, municipal wastewater treatment plants are estimated to consume more than

30 terawatt-hours per year of electricity, which equates to about \$2 billion in annual electric costs.

**What is a safe distance to live from a wastewater treatment plant?** If you discover a wastewater treatment plant more than a mile or two from a prospective home, you can assume it will have little impact on the property's value and your quality of life. If the plant is closer than that, however, you should give the purchase some thought.

**How many gallons of wastewater are treated per day?** Wastewater Treatment Plants Wastewater treatment facilities in the United States process approximately 34 billion gallons of wastewater every day. Wastewater contains nitrogen and phosphorus from human waste, food and certain soaps and detergents.

**How many gallons of water can a septic system handle per day?** It comes down to daily water usage. Most residential tanks have a capacity ranging from 750 gallons to 1,250 gallons and the average person uses 60 gallons to 70 gallons of water a day.

**How much wastewater flows per person per day?** The volume of effluent is usually calculated using population equivalents (PE) 1 PE is the amount of sewage generated by one person living in a domestic dwelling and is generally taken as 200 L of flow and 60 g of BOD/day.

### **The Absolutist: An Interview with John Boyne**

Irish author John Boyne's latest novel, "The Absolutist," delves into the complexities of World War I through the eyes of a young man who refuses to fight. In this exclusive interview, Boyne shares insights into his inspiration, the novel's themes, and its relevance to today's world.

**Q: What inspired you to write "The Absolutist"?**

**A:** I was fascinated by the phenomenon of conscientious objection during World War I. These individuals, often religious or pacifist, refused to fight despite the social and legal pressures to do so. Their stories are both heartbreaking and inspiring.

**Q: Why did you choose to focus on a young man from a working-class background as your protagonist?**

**A:** I wanted to explore the idea of class conflict within the anti-war movement. Private Tristan Sadler comes from a poor family and faces additional challenges due to his lower social status. This adds a layer of complexity to his struggle for moral clarity.

**Q: What are the major themes of the novel?**

**A:** The novel explores the horrors of war, the nature of heroism, and the individual's right to conscience. Tristan's journey forces us to question our own beliefs and confront the compromises we make in the face of adversity.

**Q: How does the novel relate to the world today?**

**A:** The issues raised in "The Absolutist" are still relevant today. We continue to grapple with war, oppression, and the struggle between personal morality and societal expectations. By understanding the sacrifices of those who have come before us, we can strive to create a more just and peaceful world.

**Q: What do you want readers to take away from the novel?**

**A:** I hope readers will come away with a sense of the importance of courage, compassion, and the pursuit of truth. Tristan Sadler's story is a reminder that it's always possible to stand up for what we believe in, even when it's difficult.
