- **Statement of Cash Flows:** Shows how cash is being used in operating, investing, and financing activities.

Question 2: What is the accounting equation? Explain how it relates to the three financial statements.

statements.

Question 3: What are the five elements of financial statements?

Answer:

2. Liabilities
3. Equity
4. Revenue
5. Expenses

Question 4: Explain the concept of going concern and how it affects financial accounting.

Answer: Going concern is the assumption that a company will continue to operate indefinitely. This assumption affects financial accounting because it allows companies to spread out expenses and depreciate assets over their expected useful lives. Question 5: What is the purpose of notes to financial statements?

Answer: Notes to financial statements provide additional information about the company's financial position and performance that cannot be presented in the main financial statements.
