What is a complete sentence in Japanese? Japanese sentences follow an SOV format. What are the forms of Japanese verbs? The basic forms of Japanese verb are root form, nai form, ta form and nakatta form. We call these four forms "Plain Form". What is the verb ending Sou in Japanese? As mentioned earlier, verbs ending in ??? are roughly the equivalent of "looks like (someone or something) is going to (verb)" in English. In other words, you can use this form to explain what you think is going to happen, based on what you can see at that moment.

What is the correct Japanese sentence structure? SOV stands for subject-object-verb, which is the sentence structure used in Japanese. In this structure, the subject comes first, followed by the object and then the verb. In English, the basic sentence structure is subject-verb-object (SVO), where the subject comes first, followed by the verb and then the object.
