

DE HAVILLAND MOSQUITO

[Download Complete File](#)

Which was faster, Spitfire or Mosquito? The Mosquito reached 408 mph in level flight, which was faster than the operational version of the Spitfire at the time, whose top speed was 370 mph. After this demonstration flight, the airplane almost failed its acceptance for the Royal Air Force.

How many De Havilland mosquitoes are still flying?

Why was the de Havilland Mosquito so fast? The original estimates were that as the Mosquito prototype had twice the surface area and over twice the weight of the Spitfire Mk.II, but also with twice its power, the Mosquito would end up being 20 mph (30 km/h) faster.

Was the de Havilland Mosquito a good plane? When Sir Geoffrey de Havilland first pitched his idea for a two-seater bomber made of wood with no armament, few people were willing to accept his design. But the de Havilland Mosquito went on to become one of the most successful and popular aircraft of the Second World War.

What did the Germans think of the Mosquito? Even Reichsmarshal and Luftwaffe chief Hermann Göring was taken with the “Wooden Wonder.” He famously stated, “It makes me furious when I see the Mosquito. I turn green and yellow with envy. The British ...

Could a Mosquito dogfight? Could a Mosquito do well in a dogfight against a single-engine fighter? “Yes and no. If the single-seater engaged the Mosquito low level, with height and speed it (the single-seater) had tremendous advantage in a dogfight. The Mosquito's strength was its ability to hit and run.

Was the Mosquito stealthy? Its wooden construction made it one of the first stealthy aircraft in an era of radar. It was probably one of the most versatile aircraft of the Second World War, being used in fighter, bomber, reconnaissance, anti-shipping and even transport roles.

Was the Mosquito the fastest plane in WWII? Nooooooooo.... The fastest prop-driven aircraft of WW2 was the Dornier Do 335 "Pfiel ", or "Arrow". Its two 1900 hp engines gave a huge amount of thrust, and being aligned in the fuselage gave better aerodynamics that contemplate twin-engined aircraft such as the Mosquito.

Was the Mosquito a fighter or bomber? The Mosquito served as a bomber, fighter, night fighter, high-altitude fighter, and photo-reconnaissance plane, and it was even used to fly a wartime airline connection over enemy territory between Britain and Sweden.

Are there any airworthy de Havilland Mosquito? Of the more than 7,000 Mosquitoes built, only a handful remain, and only three known airworthy examples survive, two in the United States, and one in Canada. The discovery of these priceless drawings has galvanized the members of The People's Mosquito, who hope to see the aircraft once again flying over Britain.

What was the German version of the de Havilland Mosquito? The Focke-Wulf Ta 154 Moskito was a fast twin-engined German night fighter aircraft designed by Kurt Tank and produced by Focke-Wulf during late World War II. Only a few were produced, proving to have less impressive performance than the prototypes.

How many guns did the Mosquito have? The Mosquito FB Mk.VI was the fighter bomber version and packed an impressive punch of four 20 mm cannons and four 7.7 mm machine guns with two 500 lb. bombs or up to eight 60 lb. rockets.

Why did de Havilland fail? The investigation explored a number of avenues, and finally gave structural failure of the pressure cabin brought about by fatigue as the cause of the accidents.

Why was the Mosquito built of wood? Wood from around the world was used to build the Mosquito, not just Canada. A variety of woods were chosen for their weight, density, strength, and hardness.

Does de Havilland still exist? Even today, many De Havilland Canada DHC-7 Dash 7 and DHC-8 Dash 8 aircraft are still in daily operation around the world. In 1980, the Canadian Government forced the privatisation of the company and in 1986 it sold it to Boeing, then to Montreal-based Bombardier Aerospace 1992.

Which fighter did the Germans fear most? Luftwaffe fighter pilots feared the Spitfire most, the Mk V entered service in early 1941, the first P 51 in 1942 and it was inferior, the P 51 D not until mid 1944, by then there were other Spitfires, the Mk IX and XII in 1942, the Mk VII, VIII and XIV in 1943, these were all better than the P51D.

Was the mosquito better than the P38?

What was the most feared Allied aircraft in WW2? Probably the most feared allied warplane was the British De Havilland Mosquito fighter bomber. Toward the end of the war, the German night fighter pilots began suffering from a bad case of what they called "Moskitoschreck" or "Mosquito terror" as the British Mosquitoes began sneaking up on them from...

Was the mosquito the best plane of WWII? Was the de Havilland Mosquito the most versatile aircraft of WW2? I say yes. The de Havilland was faster than the early Spitfires (Mk 1–9,) It could carry 4000 pounds nearly the basic long range bomb load (5000 pounds+) of a B-17. It was an outstanding aircraft in every way.

What is the maximum flying speed of a mosquito? You may be surprised to learn that mosquitoes aren't super speedy insects. They fly at about 1.5 miles per hour. They're slower than other flying insects like flies and bees. Unfortunately, they're still fast enough to make swatting at them an exercise in frustration.

What fly is mistaken for a mosquito? Crane flies come in a variety of sizes, but many look like very large mosquitoes. Some common names for crane flies are 'mosquito hawk', and 'mosquito eater. ' However, crane flies are not mosquitoes, don't bite, and they don't eat mosquitoes.

Was the Mosquito the fastest plane of WW2? No. First of all, AGAIN a question with an invalid premise: Mosquito was NOT faster than late spitfire models: Mosquito NK Mk. 30 was the fastest Mosquito which did make it into the war, and it had

DE HAVILLAND MOSQUITO

maximum speed of 424 mph (682 km/h). All mosquitoes used the 27.5-liter merlin engines, but had differen...

What was the max speed of a Spitfire?

What was the Mosquito top speed?

What was the fastest British plane in WWII? What was the fastest British plane in WW2? The Gloster Meteor III could do 458 mph at sea level, rising to 493 mph at 30,000 feet. Both the DH Hornet and Vampire were too late to see operational service, and in any case, the former was slower, 472 mph at 22,000 feet.

What was the most feared plane in WW2? Junkers Ju87 Widely known as the "Stuka", the Ju87 was one of the most feared aircraft during World War Two. It had a fearsome siren which terrified those who heard it. Lockheed Hudson Useful aeroplane. The wooden lifeboat was designed to be dropped by Hudsons to rescue airmen who had ditched.

What was the hardest plane to fly in WW2?

Which was better, p38 or Mosquito? The p38 was a heavy fighter adapted to a strike bomber role whilst the mosquito was a strike bomber adapted to a heavy fighter role. So whilst there is overlap in roles, not unsurprisingly the p38 was a better fighter and the mosquito was a better strike bomber.

Which is better, Spitfire or P51? Spitfire was more maneuverable, but had much shorter range. Mustang, with drop tanks, could get to Berlin and back, and take advantage of higher altitude to bounce Luftwaffe fighters trying to get to the bombers.

Did the US fly Spitfires in WWII? The USAAF 14th Photographic Squadron of the 8th Air Force also operated Spitfire Mark XIs from November 1943 to April 1945, flying long-range reconnaissance over Europe. Several Spitfires were captured by the Germans and flown by units that tested, evaluated, and sometimes clandestinely operated enemy aircraft.

Why did Spitfires have clipped wings? The Spitfire wing shape was adapted to suit different jobs. The City's Spitfire was 'clipped wings' which are shorter, with

reduced surface area. This was for flying at lower altitudes and sacrificed some lift for greater manoeuvrability such as a faster roll-rate. Other Spitfires had the opposite: extended wing tips.

How good was the mosquito as a fighter? As a night fighter, the Mosquito downed more than 600 Luftwaffe planes over Germany and as many V-1 missiles (buzz bombs) over England and the English Channel. As a bomber, it proved able to carry twice the bomb load for which it was designed.

What did Goering say about the mosquito? “It makes me furious when I see the Mosquito. I turn green and yellow with envy.” Although it cannot be verified that Hermann Goering, the head of the Luftwaffe, actually said these words, it perfectly sums up the Nazi desperation of being unable to intercept the Mossie.

Were WWII planes made of wood? No aircraft was more versatile during World War II than the Royal Air Force's de Havilland Mosquito. Constructed of spruce, birch, balsa, and plywood, it played a unique role as a bomber, U-boat hunter, night fighter, strafing, pathfinder, interceptor, and reconnaissance plane.

What plane was better than the Spitfire? The Bf 109 was arguably the best fighter in the world in 1940. It was faster than the Spitfire at high altitude, could dive more rapidly and carried a more effective armament of two cannon and two machine guns.

What was the easiest fighter to fly in WW2? The easiest US Navy fighter plane to fly and land during World War II was often considered to be the Grumman F4F Wildcat. This sturdy and reliable aircraft was known for its forgiving flight characteristics, making it a favorite among pilots for its ease of handling.

What was the best plane in WWII?

What is the forensic science curriculum for high school students?

Is forensic science class hard? The difficulty of a high school Forensic Science class can vary broadly depending on your high school's curriculum and the teacher's approach. It typically involves a mix of biology, chemistry, and critical thinking as you learn about crime scene investigation and evidence analysis.

Is forensics a lot of math? However, for degree paths like forensics science, math requirements will be higher. Daily work involves chemistry and even ballistics calculations, depending on the job that a person has. Because of these job requirements, forensic science curriculums usually include algebra, physics, and even calculus.

What do you do in high school forensics? Estimated Completion Time
Investigative experiences for students include electrophoresis and evidence analysis techniques such as fingerprinting, blood typing, and fiber analysis. Students also study crime scene investigation (CSI) and evidence collection using mock crime scenes.

What high school courses are best for forensic science? To set themselves up for success, aspiring forensic scientists are advised to graduate from high school, ideally with high marks in biology, chemistry, physiology, statistics, and mathematics.

What is the highest level of education for forensic science? Master's degrees allow forensic scientists to have a higher level of specialization and to be competitive for higher-level jobs. For careers in fields like forensic pathology, which requires a medical degree, or in higher education, students may go on to get their PhD.

Is forensic science a fun class? Many students who take forensic science in high school find it to be a fascinating bridge between theoretical science and practical application. It often includes a mix of biology, chemistry, and critical thinking skills as they apply to law enforcement and criminal investigations.

Is forensic science stressful? Potentially stressful at times. Additionally, you may be exposed to violent crime scenes or images. For many forensic scientists, it can be important to seek professional help and other resources to manage the stress of the job or take time off to recharge when needed.

Is there a lot of chemistry in forensic science? On an average day, forensic chemists apply knowledge from diverse disciplines such as chemistry, biology, materials science, and genetics to analyze evidence found at crime scenes or in the bodies of crime suspects. Forensic chemists often don't know the nature of the sample before they analyze it.

Is forensic science hard? Becoming a forensic scientist can be challenging. Forensic scientists need a bachelor's degree and specialized training in areas like DNA analysis, toxicology and fingerprint analysis. Strong analytical and problem-solving skills help prospective forensic scientists succeed in this field.

Why is debate called forensics? When we call our speech team activities by that term, it's natural that confusion arises. Actually the word "forensics" comes from ancient Greece where the term was applied to speeches made to convince a group of people who would make a judgment based on the arguments and evidence presented in the speech.

What is forensic science in school? Forensic science is the application of scientific methods and processes to matters that involve crime or the public. People who work in forensic science solve scientific puzzles, testify as experts in court, and even sometimes help collect evidence at crime scenes.

What is a high school forensics class like? It includes the investigation of fingerprinting, fiber analysis, ballistics, arson, trace evidence analysis, poisons, drugs, blood spatters, and blood samples. Students are taught the proper collection, preservation, and laboratory analysis of various samples.

What school is best for Forensic Science?

What degrees are best for forensic? If this sounds like the forensics career for you, you'll need to complete a bachelor degree in forensic science or a related field, such as a Bachelor of Science. Students often major in areas such as biology, crime scene investigation, and chemistry.

What grade level is forensics? Forensics (Grades 9-12)

What is the highest paying forensic job? Forensic medical examiners are typically the highest-paid forensic jobs, making about \$100,000 a year. However, rates vary from \$70,000 a year to \$200,000 or more. To become a forensic medical examiner, you'll need to become a licensed physician.

What is the hardest part of being a forensic scientist? Cons of being a forensic scientist In the laboratory, scientists may spend long hours over microscopes or sorting samples, working to catalog evidence. The nature of the job can also be stressful, with pressure to produce results, connect clues or find every available piece of evidence.

What is taught in forensic science? Forensic Studies Students Explore: Crime scene investigation and reconstruction. Eyewitness testimony and death investigation. How to apply select analysis techniques to items of evidence, including trace evidence analysis, impression evidence analysis, arson, forensic serology, and DNA analysis. Serial killer ...

What subjects are best for forensic science? Forensic scientists need to have a strong fundamental background in the natural sciences. For example, new hires who analyze drugs, DNA, trace, and toxicological evidence in forensic science laboratories typically have a degree in chemistry, biochemistry, biology, or forensic science from an accredited institution.

What are the objectives of forensic science course? Forensic science is the application of multiple scientific disciplines to the investigation of criminal or civil questions of the law. In this course we will use biology, chemistry, and earth sciences to analyze and interpret evidence within the realm of our legal system.

What is forensic science kid friendly? Forensic science is a kind of science that blends biology, chemistry and physics to look at evidence, solve crimes and settle

legal issues. Forensic scientists use evidence like fingerprints, blood, hair, bullets and DNA to show the truth about what happened in a situation.

How do I prepare for financial accounting exam?
