How to Add a Stitch in Knitting: A Comprehensive Guide**

What does make 1 stitch mean in knitting?

"Make 1 stitch" (M1) in knitting refers to the technique of increasing the number of stitches in a row.

Why do you add a stitch in knitting?

Stitches are added to create increases, which are used to shape garments and add interest to patterns.

How do you add an extra stitch?

To add a stitch at the beginning or end of a row:

1. **M1R (make 1 stitch right):** Insert the right-hand needle into the next stitch on the left-hand needle from front to back, as if to knit.
2. Wrap the working yarn around the needle and pull it through the stitch.
3. Knit the new stitch.

To add a stitch in the middle of a row:

1. **M1L (make 1 stitch left):** Insert the left-hand needle into the next stitch on the right-hand needle from back to front, as if to purl.
2. Wrap the working yarn around the needle and pull it through the stitch.
3. Knit the new stitch.

How to increase 1 stitch by knitting into front and back of next stitch:

1. Knit into the next stitch as normal.
2. Insert the left-hand needle into the back of the same stitch and knit again.

How to increase 1 stitch at the beginning and end of a row:

1. At the beginning of the row, cast on 1 stitch.
2. At the end of the row, M1R.

How to fix an added stitch in knitting:

1. Knit the added stitch in the next row to secure it.
2. If a hole is created, use a crochet hook to close the gap.

How to drop one stitch in knitting:

1. Lift the stitch off the left-hand needle.
2. Cut the yarn, leaving a 1-inch tail.
3. Draw the tail through the stitch to close it.

How to add stitches evenly in knitting:

1. Divide the total number of increases by the desired number of rows.
2. Add the specified number of stitches in each of those rows.

What does make 1 stitch mean?

"Make 1 stitch" means to increase the number of stitches in a row.
