What are the two main types of committees? Standing committees are permanent committees with specific responsibilities outlined in the rules of each chamber. Special and select committees are created for specific purposes, such as an investigation. Joint committees are formed with members of both the House and Senate.

What are the two main types of formal reports? There are two categories of formal reports: informational and analytical reports. The informational report gathers data and facts used to draw conclusions. The analytical report contains the same

information as the informational report, but it also offers recommendations to solve a problem.

What is the committee report? A committee report is a detailed document that outlines the work done by a committee, the discussions undertaken during its meetings and the recommendations it has based on that. These reports highlight its findings to the board.

What are the two most common types of board of committees?
