What is the main point of an inspector call? An Inspector Calls by J B Priestley, is a play that revolves around the apparent suicide of a young woman called Eva Smith. In the play, the unsuspecting Birling family are visited by the mysterious Inspector Goole.

What was the message of Inspector Calls? He also felt that if people were more considerate of one another, it would improve quality of life for all. This is why social responsibility is a key theme of the play. Priestley wanted his audience to be responsible for their own behaviour and responsible for the welfare of others.

What is the big idea of Inspector Calls? Chris Power introduces An Inspector Calls as a morality play that denounces the hypocrisy and callousness of capitalism and argues that a just society can only be achieved if all individuals feel a sense of social responsibility.

Why is An Inspector Calls so popular? An Inspector Calls has been heard and understood in thousands of theatres around the world. Its simplicity is therefore a large factor in its enduring appeal. The second reason is that it is a gripping piece of drama that maintains the shape and atmosphere of a thriller.

What is the twist in an inspector call? The twist ending Birling: That was the police. A girl has just died - on her way to the Infirmary - after swallowing some disinfectant. And a police inspector is on his way here - to ask some - questions.

What actually happened in Inspector Calls? The Inspector forces Gerald to confess to an affair he had with Eva. Sheila respects Gerald's honesty but returns the engagement ring he gave her. It is revealed that Sybil Birling had refused to help the pregnant Eva. It turns out that it was Eric who got Eva pregnant, and stole money

from his father to help her.

Why is he called Inspector Goole? His name 'Goole' suggests a supernatural or ghost like element, and he seems to know what the characters will say before they do - is he the conscience of the audience? Is he the voice of Priestley?

What do inspector calls symbolize? Mr Birling represents capitalism, whilst the Inspector is symbolic of socialism. The concept of 'rugged individualism' and "a man has to look after himself" proposed by Mr Birling is contrasted by The Inspector's notion of 'social responsibility' and that "we are all one body".

What is the moral of Inspector Calls? RESPONSIBILITY / JUSTICE The Inspector, as Priestley's mouthpiece, is a symbol of Socialism – he wants everyone to look after each other and to view community as very important. He is sent to uncover the family's wrongdoings and to make them see that they should take responsibility for others.

Why is an inspector call still relevant today? Class issues are also dealt with by having a middle-class family involved in the death of a working-class girl. J B Priestley explored these themes in a lot of his work. They are political in nature and are still relevant today.

What is the allegory of the inspector calls? In what way might An Inspector Calls be described as allegorical? The characters are symbolic representations of the upper, middle and working classes. They may also symbolise specific sins that Priestley associated strongly with the middle classes. For example, Mr Birling might represent the sin of greed.

What is the lesson of An Inspector Calls? Priestley's An Inspector Calls. Priestley's play, An Inspector Calls, is one of the most iconic 20th century plays taught in English lessons that addresses themes including social responsibility, age, gender and class.

What happens at the end of an inspector call? Birlings are relieved as 'Inspector' not real and no-one had died. Relieves tension. Then unexpected final twist with fact that Birlings hear that real Inspector is on his way to ask questions about a young girl's suicide.

Who was most at fault in An Inspector Calls? In An Inspector Calls, Mrs. Birling is the most to blame for Eva Smith's death. Eva Smith went to Mrs. Birling's charity for assistance after she lost both of her jobs, and had been impregnated by Mrs.

What does Inspector Calls teach us? Social responsibility is the most obvious theme in 'An Inspector Calls'. The Inspector goes to the Birlings' to encourage them to be 'accountable' for their actions, and to 'take responsibility for others'. Many people in society are 'vulnerable' or 'mistreated' through no fault of their own, just like Eva Smith.

Who is the killer in an inspector call? Answer and Explanation: In An Inspector Calls, Eva is not killed by one person but by the cumulative actions of the people that she has to deal with in her everyday life. Each person in the Croft and Birling families made her life difficult.

What does Gerald say at the end? Ending: By the end of the play, Gerald does not seem to have changed very much. His last action is to suggest to Sheila that they should remain engaged, holding up the ring and saying, 'Everything's all right now, Sheila.' This suggests that Gerald is more like Mr and Mrs Birling than the socialists Eric and Sheila.

Who is the bad guy in An Inspector Calls? Eric Birling is one of the main characters in J.B. Priestly's acclaimed 1945 play An Inspector Calls.

What did Gerald do wrong in Inspector Calls? Priestley uses Gerald to attack the upper-classes of post-war Britain. He shows that despite outward appearances, Gerald is described as an 'attractive chap' and 'well-bred'. This class of people were still capable of questionable behaviour. Gerald has an affair and initially tries to avoid telling the truth.

What does Gerald say to Sheila at the end? Gerald admits to knowing her, and tells Sheila again that she won't like anything he has to say about Eva/Daisy. Gerald says he met Eva/Daisy, who introduced herself only as Daisy, at a bar where he assumed she was a prostitute, and where a lecherous older man had cornered her.

What did Sheila do to Eva Smith? Sheila is horrified when she finds out that her complaint led to Eva being sacked for a second time. Sheila gives a full and honest

account of what happened in the store, admitting that she thought Eva had smiled when she tried on a dress that didn't suit her.

What is Eric and Eva's baby symbolic of? Also Eva and Eric's baby could be symbolic of a bridge between the upper and lower classes. It has the power to bring them two classes together and yet Mrs Birling destroys the baby because she is only interested in self preservation.

Who realises Inspector Goole wasn't a real person? Gerald concludes that the Inspector was a fraud, and Arthur agrees, saying that the family has been "hoaxed." Arthur begins thinking through the damage done, and hastily concludes that, if the family can keep the night's proceedings a secret, their reputations will not be harmed.

Why does Inspector Goole refuse a drink? Alcohol bears connotations of immoral behaviour and therefore the Inspector's refusal is symbolic of his refusing to act immorally. The offering of an alcoholic drink to an on duty policeman by Mr Birling is a soft attempt at corrupting the Inspector, who is conversely responsible and takes the role seriously.

How does the inspector say that Eva died? Eva was sacked from the Birling factory. The Inspector tells the family that a girl died in the infirmary two hours ago. She took her own life by drinking disinfectant.

What is the irony in An Inspector Calls? There is dramatic irony in the way Mrs Birling is trapped at the end of the scene. When she forcefully blames 'some drunken young idler', the audience realise that she is describing Eric. This also highlights her hypocrisy to the audience: we know that she would not apply the same standards to her own family.

Why is Eva Smith called Eva? Priestley uses the name Eva as a reference to Eve, the first woman in the Biblical story of the Garden of Eden. She was tempted by Satan to eat fruit from the Forbidden Tree which resulted in Adam and Eve being expelled from the Garden of Eden (this expulsion is often called the fall of man).

What is the lesson of An Inspector Calls? Priestley's *An Inspector Calls*. Priestley's play, *An Inspector Calls*, is one of the most iconic 20th century plays

taught in English lessons that addresses themes including social responsibility, age, gender and class.

What is the intention of the inspector calls? socialism?, alongside social responsibility, was arguably one of Priestley's 'main intentions' with writing 'An Inspector Calls'. Priestley himself was a socialist?, but Britain was - and still is - 'a capitalist country'.

What was the purpose of the ending of An Inspector Calls? The ending also reflects Priestley's interest in theories about time, including the idea that individuals re-enter their lives again after death, living it all over again. They can make changes to their previous actions, beginning a new cycle where they do not repeat the mistakes of their past.

What is the inspectors final message in An Inspector Calls? We are members of one body. We are responsible for each other. And I tell you that the time will soon come when if men will not learn that lesson, then they will be taught it in fire and blood and anguish. This is from the Inspector's final speech to the family in Act Three, just before he leaves their house.

What is the deeper meaning of the inspector calls? Birling perhaps represents greed, Mrs Birling pride, Sheila envy and anger, both Gerald Croft and Eric represent lust, however Eric also has traits of greed and laziness. The inspector is attempting to rid each character of their deadly sin, and therefore the theme of the play revolves around sin and responsibilities.

What is the moral of Inspector Calls? RESPONSIBILITY / JUSTICE The Inspector, as Priestley's mouthpiece, is a symbol of Socialism – he wants everyone to look after each other and to view community as very important. He is sent to uncover the family's wrongdoings and to make them see that they should take responsibility for others.

Was Inspector Goole a real inspector? He drives forward the drama, with his questions creating shocking moments and gripping cliff-hangers for the audience. By the end of the play it is revealed that he isn't actually an Inspector. It is not entirely clear who he is, Priestley leaves it up to the audience to decide.

What is the main point of inspector call? In An Inspector Calls, J.B. Priestley uses the Birling family's treatment of Eva Smith to reflect the indifference and contempt the wealthy often had for the poor. Like the disadvantaged passengers on the Titanic, Eva is a casualty of a society that values the lives of the rich more than those of the poor.

What is the twist in Inspector Calls? Birlings are relieved as 'Inspector' not real and no-one had died. Relieves tension. Then unexpected final twist with fact that Birlings hear that real Inspector is on his way to ask questions about a young girl's suicide. Restores tension.

Why does Sheila say fire, blood, and anguish? She tells them "it frightens me the way you talk" which implies with the verb "frightens" that their actions are extremely harmful. This mirrors the Inspector's message that they will be the cause of "fire and blood and anguish" and emphasises her now socialist ideology.

Who was guilty in An Inspector Calls? Arthur, Sybil, Sheila, Eric, and Gerald must come to terms with their guilt, leading to Eva/Daisy's demise. The Inspector wants the family to accept the pain it has caused Eva/Daisy.

What is Eric and Eva's baby symbolic of? Also Eva and Eric's baby could be symbolic of a bridge between the upper and lower classes. It has the power to bring them two classes together and yet Mrs Birling destroys the baby because she is only interested in self preservation.
