Reading level indicates the most difficult text a student can comprehend based on a standardized test (such as Star Reading) or results from Accelerated Reader Reading Practice quizzes.

If a student reads a 10-point book and scores 100 percent on the quiz, he earns 100 percent of the points. If the student scores 90 percent, he earns 90 percent of the points and so on.

**What percent do you need to pass an AR test?** The higher passing percentage ensures that the student has read and comprehended the complete version of the book. Ultimately, finding a range of reading levels at which the student scores 85 percent correct or above on Accelerated Reader quizzes will provide optimal growth.

**Is The Accelerated Reader accurate?** Accelerated Reader™ was found to have mixed effects on comprehension and no discernible effects on reading fluency for beginning readers.

It's a reading program that uses a digital platform to track books, but a lot of it takes place in the real world. As the school librarian, you would create reading challenges for your students.

**Can you retake an Accelerated Reader test?** There are no AR QUIZ RETAKES or deleting quizzes! AR is a one-time assessment of reading comprehension. AR Home Connect is a wonderful opportunity for parents to help monitor their child's AR progress.

**How do I check my child's AR points?** You can see the points that a student has earned on some reports (such as the Summary Diagnostic Report and the Student Performance Record Report), in the Student Details in the Record Book, and in the Record Book's Goals tab (if you are using the goal models for grades 3 and up).
