"She's a girl who is not at all interested in being heroic or strong or brave or anything," Ellis said.

Why did *Parvana's* father go to jail? Taliban soldiers barge into *Parvana's* house to arrest her father, saying that he has forbidden books and is using them to teach women to read. *Parvana's* mother is violently shoved to the ground while her husband is dragged away.

small, in this eloquent collection from a master storyteller.

Is Parvana a true story? Based closely on real life, this is the exciting and inspiring story of Parvana, a young girl growing up in Afghanistan, as she struggles to make a life for herself and her family under the harsh rule of the Taliban. There are many types of battle in Afghanistan.

Is Parvana A Boy or a girl? Inspired by Ellis's interviews with Afghan women in refugee camps, the series begins with 11-year-old Parvana, who must disguise herself as a boy to support her family after her father is arrested by the Taliban.

How old is Parvana now? In this stunning sequel to *The Breadwinner Trilogy*, Parvana, now 15-years-old, is found in a bombed-out school and held as a suspected terrorist by American troops in Afghanistan.

What is Parvana's boy's name?

Who is Parvana's father? In 2001, Parvana is an 11-year-old girl who lives in Kabul under the Taliban's Islamic Emirate of Afghanistan just as the War on Terror is beginning. Her father, Nurullah, is a former school teacher who became a hawker after losing his left leg in the Soviet–Afghan War.

Why is it called breadwinner? Why Is It Called a "Breadwinner"? The term is thought to have originated in the U.K. in the 1820s. ¹⁰ At the time, and even today, bread is considered a staple food item. As such, the person who brought home the bulk of the money for a family, therefore, was bringing home the bread, so to speak.

Why was Parvana's brother killed? Parvana lives with Father, Mother, her 17-year-old sister Nooria, her five-year-old sister Maryam, and toddler brother, Ali. She also has a deceased brother named Hossain, who died when he was 14 after stepping on a landmine.

How old is Nooria? Nooria is Parvana's 17-year-old sister. Nooria and Parvana's relationship is strained because of their age difference and because Nooria seems, to Parvana, to be a fully-fledged adult—and a beautiful one at that.

What is Parvana's secret? Shauzia leads Parvana to a low wall to share a secret: she's saving money so she can escape. She explains that she'll stay until next

spring, and she insists that she wants to still be a boy then—if she goes back to being a girl, she'll be stuck at home.

How did *The Breadwinner* end? The novel ends with a number of open ends for the characters: Shauzia will travel out of the city with nomads, Mrs. Weera and Homa will resettle in Pakistan, Parvana and her father will attempt to find their family.

Is *The Breadwinner* realistic? Like Irish animation studio Cartoon Saloon's previous big films (*The Secret of Kells* and *Song of the Sea*), *The Breadwinner* blends folklore with realism and ultimately shows how children are far braver than some might think.

What is the moral lesson of *The Breadwinner*? *The Breadwinner* offers valuable lessons on how fear and power exerted by a few people can threaten the survival and liberty of all.

What was Ellis's religion? Ellis became a “firm atheist and anti-mystic” at age 12, according to his 2007 book *Are Capitalism, Objectivism, and Libertarianism Religions? Yes!*. In the book, he also called himself a “probabilistic atheist,” meaning that he believed the probability of a god existing was very low.

What is the Ellis theory? According to Albert Ellis and REBT, irrational beliefs are the source of psychological distress. Any irrational belief stems from a core 'should,' 'must,' 'have to,' or 'need to' statement.

What is Ellis's ABC model? What is The ABC Model? The ABC model is an mnemonic that represents the three stages that determine our behavior: Activating events: a negative situation occurs. Beliefs: the explanation we create for why the situation happened. Consequences: our feelings and behaviors in response to adversity, caused by our beliefs/

Why is Parvana in jail? Parvana is in custody at an American military base on suspicion of terrorist activities in league with the Taliban, who no longer control the country but continue to wage violence there. Having found Parvana alone in the ruins of her bombed-out school, the Americans are trying to determine what she was doing there.

How old is Parvana? Parvana is the novel's 11-year-old protagonist. She's proud of being Afghan and adores Afghan history. She's particularly fond of the historical figure Malali, who led Afghan troops to victory during the war with the British.

Why did Deborah Ellis write The Breadwinner? Ellis said she was inspired to write the book after visiting women in Afghan refugee camps.

How old is Shauzia in Mud City? Mud City, the final volume in Deborah Ellis's Afghan trilogy, follows 14-year-old Shauzia, Parvana's best friend, into a refugee camp in Pakistan. Having fled an arranged marriage in Kabul, Shauzia becomes little more than a gopher for Mrs.

What happens to Parvana's father? Hossain was killed by a land mine when he was fourteen years old. Parvana's father is arrested by Taliban soldiers for mysterious reasons and taken to jail without any trial. The Taliban keeps him in jail for many months without sending any word to his family. 4.
