

Acet question papers

Download Complete File

Navigating the ACET: A Comprehensive Guide**

Eligibility and Preparation

- **Who can take ACET?**
 - Students who have completed 12th grade or its equivalent
- **How can I prepare for ACET?**
 - Study the ACET syllabus thoroughly
 - Practice solving past papers and mock tests
- **Is it hard to get into Ateneo?**
 - The acceptance rate to Ateneo de Manila University varies, but it is generally competitive

Exam Logistics

- **What is the content of ACET?**
 - Mathematics, English, Reasoning, and Science
- **How many items ACET?**
 - Approximately 100 multiple-choice questions
- **Is there negative marking in ACET?**
 - No, there is no negative marking

- **Does ACET allow calculators?**

- No, calculators are not allowed during the exam

Passing and Admissions

- **Can I write ACET after 12th?**

- Yes, you can write ACET after completing 12th grade

- **What is the pass mark for ACET exam?**

- The pass mark varies each year, but it is typically within the 50th percentile

- **What school is ACET for?**

- Ateneo de Manila University

Career Path and Further Studies

- **What does an actuary do?**

- Evaluates and manages financial risks

- **What is the study of actuarial science?**

- The application of mathematics, statistics, and economics to assess and manage risk

- **What to do after passing ACET?**

- Enroll in an actuarial science program at Ateneo or other accredited universities

- **Which country is best for actuarial science?**

- The United States, Canada, and the United Kingdom are highly regarded for their actuarial science programs

- **Which institute is best for actuarial science?**

- The Society of Actuaries (SOA) and the Casualty Actuarial Society (CAS)

Additional Notes

- Harvard students are allowed to use calculators on some exams, but not all
- ACET does not have an essay component

The Power of Logic Answer Key: Chapter 8

Question 1:

Define syllogism and give an example.

Answer:

A syllogism is an argument consisting of two premises and a conclusion. The premises provide evidence or support for the conclusion.

Example:

Premise 1: All dogs are mammals. Premise 2: Fido is a dog. Conclusion: Therefore, Fido is a mammal.

Question 2:

What is the difference between a valid and a sound syllogism?

Answer:

A valid syllogism is one in which the conclusion follows logically from the premises. A sound syllogism is one in which both the premises and the conclusion are true.

Question 3:

Identify the type of syllogism and determine if it is valid or sound:

Premise 1: If it rains, the ground will get wet. Premise 2: It is raining. Conclusion: Therefore, the ground is wet.

Answer:

This is a deductive syllogism and it is valid because the conclusion follows logically from the premises. However, it is not sound because the second premise is not necessarily true.

Question 4:

Explain the fallacy of circular reasoning.

Answer:

Circular reasoning is a logical fallacy that occurs when an argument uses the conclusion as one of its premises.

Example:

Premise 1: God exists because the Bible says so. Premise 2: The Bible is the word of God. Conclusion: Therefore, God exists.

Question 5:

What is the difference between formal and informal logic?

Answer:

Formal logic is a system of rules for evaluating the validity of arguments based on their structure and form. Informal logic is a more flexible and practical approach to evaluating arguments that considers their language and context.

Timber Frame Construction: 5th Edition - A Comprehensive Q&A

As a comprehensive guide to the art and science of timber framing, "Timber Frame Construction: 5th Edition" provides invaluable insights into this traditional building method. Here are some frequently asked questions and their answers from the book:

Q: What is the historical significance of timber framing? **A:** Timber framing has been used for centuries, notably in European and Japanese architecture. Its structural integrity and aesthetic appeal have made it a timeless and enduring

building technique.

Q: What are the advantages of using timber frames? A: Timber frames offer numerous advantages, including:

- High strength and durability
- Flexibility and adaptability to various designs
- Natural insulation and breathability
- Low maintenance requirements
- Environmental sustainability

Q: What types of timber are commonly used in framing? A: The choice of timber depends on availability, durability, and structural properties. Common species include oak, Douglas fir, Southern pine, and cedar.

Q: How are timber frames assembled? A: Timber frames are typically assembled using mortise-and-tenon joinery, where mortises (holes) are cut into one member and tenons (projections) are cut into another, creating a strong and interlocking connection.

Q: What are some key considerations for timber frame design? A: Designing timber frames requires careful attention to factors such as:

- Load distribution and stress analysis
- Joint details and stability
- Energy efficiency and weather resistance
- Aesthetic considerations and the desired architectural style

The 5th edition of "Timber Frame Construction" further explores advanced topics such as code compliance, seismic design, and the integration of modern materials into timber frames. It remains an indispensable resource for architects, builders, and anyone interested in the art and craftsmanship of timber framing.

What is the 15th revelation of divine love according to Julian of Norwich? The Fifteenth is that we shall suddenly be taken from all our pain and from all our woe, and of His Goodness we shall come up above, where we shall have our Lord Jesus

for our meed and be fulfilled with joy and bliss in Heaven.

What is the message in Revelation of divine love? Christ's Passion is revealed to her in all its intensity, yet through it, Julian receives assurance of God's infinite gentleness and mercy and his everlasting love for mankind. Julian also puts forth original theological ideas. She sees God as friendly, "familiar and courteous" (51), and incapable of anger.

What are the primary themes of Julian's revelation of divine love? Themes. Julian recounts her visions in the Short Text and in the Long Text; both texts embody similar literary themes of love, sacrifice and suffering, and the mysticism surrounding God's identity (Norwich). Julian displays the power of love by explaining how she feels when she is united with the love of God.

When did Julian of Norwich write Revelations of Divine Love? Revelations of Divine Love is a medieval book of Christian mystical devotions. Containing 87 chapters, the work was written between the 14th and 15th centuries by Julian of Norwich, about whom almost nothing is known.

What is the message of divine love? There is nothing stronger, more pure or right than divine love. It is as strong as God Himself; and the Bible says, God is love; and he that dwelleth in love dwelleth in God, and God in him (I John 4:16). He that loveth not knoweth not God; for God is love (I John 4:8).

What does the revelation of the divine message mean? revelation, in religion, the disclosure of divine or sacred reality or purpose to humanity. In the religious view, such disclosure may come through mystical insights, historical events, or spiritual experiences that transform the lives of individuals and groups.

Why is Julian of Norwich not a saint? Julian isn't seen as a saint because she had a holy life—we know almost nothing about that. What we do know is that in her writing she witnessed trusting faith both to credal statements and to the loving reality of a Person.

Why is Julian of Norwich important? Julian of Norwich (born 1342, probably Norwich, Norfolk, Eng. —died after 1416) was a celebrated mystic whose Revelations of Divine Love (or Showings) is generally considered one of the most

remarkable documents of medieval religious experience. She spent the latter part of her life as a recluse at St.

What is the summary of divine revelation? Definition. God's makes himself known as Lord through divine revelation, which is given to all people through creation and human nature and to specific people through events, inspired human words recorded as Scripture, and Jesus Christ himself.

Why is Julian of Norwich pictured with a cat? She was, however, allowed to have a cat to keep vermin at bay. It is believed that she developed a close relationship with her cat, and she is known as both the patron saint of contemplatives and of cats. It is said that Julian and her cat anchored the Light during one of the darkest periods of history.

What is the meaning of divine love? Divine love is often referred to as love from a deity or God you believe in. It isn't necessarily limited to the Christian faith, as many religions express a concept of divine love, including Christianity, Islam, Judaism, and Buddhism. Divine love might also be a concept used in spirituality, including Paganism.

How many visions did Julian of Norwich have? An English woman of thirty-and-a-half years lay dying in the city of Norwich.”[2] This is how the great historian of Christian mysticism, Bernard McGinn, introduces us to Julian. Over the course of two days, Julian received 16 visions of the crucified and bloodied Lord.

What is the revelation of divine love about? The story goes that Julian of Norwich wanted to have a revelation from God and then one day fell extremely ill, and while she was ill she had a series of 16 visions in which she learnt about God's loving nature.

What does Julian of Norwich think about sin? This perhaps then allows us to enter into Julian's insistence that there is no such thing as sin. “I believe,” she writes, “that [sin] has no sort of substance nor portion of being, nor could it be recognized were it not for the suffering it causes.” Substance is Julian's word for the goodness which is inherent in us.

What was Julian of Norwich relationship with God? God's love for us is so “high, surpassing, [and] immeasurable” that we cannot comprehend it. And yet this love for us is so intimate that Julian equates it with the love of a mother for her child, and famously calls God “our Mother in nature, our Mother in grace.”

How did divine love different from human love? “Ordinary love is selfish, darkly rooted in desires and satisfactions,” [Sri Yukteswar said]. “Divine love is without condition, without boundary, without change. The flux of the human heart is gone forever at the transfixing touch of pure love.” Many human beings say “I love you” one day and reject you the next.

What is the principle of divine love? Divine Love, or Principle, has an inseparable, indestructible relationship with God's beloved spiritual expression, man, which is the generic term for all of us in our true spiritual nature.

What is the first element of divine love? Kindness. The first element of divine love—pure love—taught by both Paul and Mormon is its kindness, its selfless quality, its lack of ego and vanity and consuming self-centeredness. “Charity suffereth long, and is kind, [charity] envieth not, and is not puffed up, seeketh not her own” (Moro. 7:45).

What is the ultimate purpose of divine revelation? This is the primary purpose of Divine revelation: to give us the truths necessary to be believed and lived in order that we may get to Heaven. Divine revelation is all about God unveiling Himself to us so that we can come into relationship with Him and know, love, and serve Him so as to enter into eternal beatitude.

What is the real message of revelation? However, a look at the context, interpretation, and purpose of Revelation helps to demystify the book and reveal that all the apocalyptic imagery and symbolism point to a simple, consistent, and comforting message: Jesus Christ has won the battle against evil and God's kingdom will endure forever.

What is it called when God reveals things to you? Revelation means to show us something we did not know or see before. In Christianity revelation refers to the way in which God reveals himself . Revelation does not only happen to saints or 'holy

people'. You are responsible for listening to God's word in order to see how God is revealing himself to you.

What can we learn from Julian of Norwich? The Friends of Julian of Norwich, a spiritual community in Norwich dedicated to the mystic, noted in a description of a talk by Pelphrey on the subject: "Here [Julian] learned that God is not an angry judge; but, like a mother, has joyfully given us birth through the pain of the cross." Julian herself wrote in ...

Why does Julian of Norwich want to suffer? For her, suffering is very important motivation to desire God and lead people to be united with God, even though it is painful.

Why did Julian reject Christianity? Julian had been baptized and raised as a Christian, but, although he outwardly conformed until he was supreme, Christianity in its official guise meant to him the religion of those who had murdered his father, his brother, and many of his relations and, as such, was hardly likely to commend itself to him.

What was Julian of Norwich's best quote? The greatest honor we can give Almighty God is to live gladly because of the knowledge of his love. God loved us before he made us; and his love has never diminished and never shall. And all shall be well. And all shall be well.

What is the prayer of Julian of Norwich? Thank you Lord for the assurance this day that because you are God and Jesus is Lord, all will be well. This day, Lord, give me grace, free me from all unholy distractions, and help me walk with you, in your Spirit. I pray through Jesus, Lord, Savior, Healer, and Forerunner. Amen.

What did Julian of Norwich wish for? My wish was to have been present with those who loved Christ and were with him at his passion so that I, with my own eyes, might have seen the passion which our Lord suffered for me, and so that I might have suffered with him as the others did who loved him. I never desired any other sight or revelation of God.
