2nd PUC Computer Science Question Papers: A Comprehensive Guide

The 2nd PUC Computer Science question papers are designed to assess students' knowledge and understanding of the subject matter. The papers typically cover a wide range of topics, including programming concepts, data structures, algorithms, and computer architecture.

Section A: Multiple Choice Questions (15 Marks)

This section consists of 15 multiple choice questions, each carrying 1 mark. These questions test students' basic knowledge and understanding of the subject matter. For example, one question might ask which of the following is NOT a data structure:

- (A) Array
- (B) Stack
- (C) Queue
- (D) File

Section B: Short Answer Questions (25 Marks)

This section consists of 5 short answer questions, each carrying 5 marks. These questions require students to provide brief answers, demonstrating their understanding of specific concepts. For example, one question might ask:

- Explain the difference between a compiler and an interpreter.

Section C: Long Answer Questions (40 Marks)

This section consists of 4 long answer questions, each carrying 10 marks. These questions require students to provide detailed answers, demonstrating their ability to apply their knowledge to solve problems. For example, one question might ask:

- Write a C program to implement a stack and demonstrate its use.

Section D: Programming Question (20 Marks)

This section consists of 1 programming question, carrying 20 marks. This question requires students to write a program to solve a specific problem. For example, one question might ask:

- Write a Java program to find the shortest path between two nodes in a graph.

Answer Key

The answer key to the 2nd PUC Computer Science question papers is typically released by the Karnataka Secondary Education Examination Board (KSEEB) after the examination. The answer key provides the correct answers to all of the questions in the paper.
