557202: Listening to Music, 5th Edition by Jay D. Zorn

Question: What is the topic covered in this book?

Answer: The book "557202: Listening to Music, 5th Edition" by Jay D. Zorn explores the fundamentals of music appreciation. It provides readers with a comprehensive understanding of musical elements, forms, and styles from various cultures and historical periods.

Question: What are some key features of this edition?

Answer: The 5th edition offers updated content, including new examples and illustrations. It features a multimedia companion website that provides additional learning resources, such as interactive exercises, audio and video clips, and annotated listening lists. The book is designed to engage readers and foster a deeper appreciation for music.

Question: How is the book structured?

Answer: The book is divided into 12 chapters that cover topics such as the elements of music, musical form, texture, tonality, rhythm, and melody. Each chapter includes a Listening Guide that helps readers identify and analyze musical elements in specific works. The book concludes with a chapter on music in the 21st century.

Question: Who is the target audience for this book?

Answer: The book is primarily intended for undergraduate students taking introductory music appreciation courses. However, it can also be beneficial for general readers who are interested in developing their musical knowledge and understanding.

Question: What are some of the benefits of using this book?

Answer: Using this book can enhance readers' ability to listen attentively to music and identify its various elements. It provides a solid foundation for further study in music theory, history, and performance. The multimedia companion website offers additional opportunities for interactive learning and reinforcement of concepts.
