

# TO KILL A MOCKINGBIRD CHAPTER 31 QUESTIONS AND ANSWERS

## [Download Complete File](#)

### To Kill a Mockingbird: Chapter 31 Questions and Answers

**1. What is the significance of the jury's decision to convict Tom Robinson of rape?**

**Answer:** The jury's decision to convict Tom Robinson despite the overwhelming evidence of his innocence exposes the deep-seated racism in Maycomb society. It demonstrates the power of prejudice and the failure of the justice system to protect the rights of African Americans.

**2. How does Atticus react to the verdict?**

**Answer:** Atticus is devastated by the verdict, but he remains determined to fight for Tom's freedom. He calmly informs the jury that he will appeal the decision and that he believes in Tom's innocence.

**3. What is Bob Ewell's motivation for attacking Scout and Jem?**

**Answer:** Bob Ewell seeks revenge on Scout and Jem because he believes they humiliated him in court. He also harbors resentment towards Atticus for defending Tom Robinson, an African American.

**4. How does Boo Radley protect Scout and Jem from Bob Ewell?**

**Answer:** Boo Radley, who has been secretly observing the Finch family, emerges from his house and confronts Bob Ewell. In a struggle, Boo stabs Ewell and saves Scout and Jem from harm.

## 5. How does the community react to the incident with Bob Ewell?

**Answer:** The community is divided in its reaction to the incident with Bob Ewell. Some view Boo Radley as a hero, while others continue to fear and ostracize him. However, the sheriff, Heck Tate, decides not to charge Boo with Ewell's death, recognizing that he acted in self-defense.

## Sudut Dua Vektor dalam Matematika SMA

Dalam matematika SMA, sudut dua vektor merupakan konsep yang penting dalam trigonometri dan geometri. Sudut ini digunakan untuk menentukan orientasi dan hubungan antara dua vektor.

### Definisi Sudut Dua Vektor

Sudut dua vektor, umumnya dilambangkan dengan  $\theta$  (theta), adalah sudut yang dibentuk oleh dua vektor yang ditempatkan ujung ke ujung. Vektor pertama disebut vektor awal dan vektor kedua disebut vektor terminal.

### Rumus Sudut Dua Vektor

Sudut dua vektor dapat dihitung menggunakan rumus berikut:

$$\cos \theta = (\mathbf{u} \cdot \mathbf{v}) / (|\mathbf{u}| |\mathbf{v}|)$$

di mana:

- $\mathbf{u}$  dan  $\mathbf{v}$  adalah vektor awal dan vektor terminal
- $\mathbf{u} \cdot \mathbf{v}$  adalah hasil kali titik  $\mathbf{u}$  dan  $\mathbf{v}$
- $|\mathbf{u}|$  dan  $|\mathbf{v}|$  adalah besar vektor  $\mathbf{u}$  dan  $\mathbf{v}$

### Contoh Soal

**Soal:** Dua vektor,  $\mathbf{u} = (2, 3)$  dan  $\mathbf{v} = (4, -1)$ , membentuk sudut  $\theta$ . Hitunglah besar  $\theta$ .

**Jawaban:**

- Hitung hasil kali titik  $\mathbf{u}$  dan  $\mathbf{v}$ :  $\mathbf{u} \cdot \mathbf{v} = (2)(4) + (3)(-1) = 5$

- Hitung besar vektor  $u$  dan  $v$ :  $|u| = \sqrt{2^2 + 3^2} = \sqrt{13}$  dan  $|v| = \sqrt{4^2 + (-1)^2} = \sqrt{17}$
- Substitusikan nilai-nilai tersebut ke dalam rumus sudut dua vektor:

$$\cos \theta = \frac{5}{(\sqrt{13} \sqrt{17})} \approx 0,73$$

$$\theta = \cos^{-1}(0,73) \approx 42,6^\circ$$

### Sifat-Sifat Sudut Dua Vektor

- Sudut dua vektor berada dalam interval  $[0^\circ, 180^\circ]$ .
- Jika sudut dua vektor sama dengan  $0^\circ$ , maka kedua vektor tersebut sejajar.
- Jika sudut dua vektor sama dengan  $90^\circ$ , maka kedua vektor tersebut saling tegak lurus (ortogonal).
- Jika sudut dua vektor sama dengan  $180^\circ$ , maka kedua vektor tersebut berlawanan arah.

### The Content Strategy Toolkit: Methods, Guidelines, and Templates for Getting Content Right

In today's digital landscape, content is king. But creating effective content that resonates with your target audience and achieves your business goals can be a daunting task. That's where "The Content Strategy Toolkit" comes in.

This comprehensive guide provides a blueprint for developing and executing a successful content strategy. It offers a wealth of methods, guidelines, and templates to help you:

- **Define your audience:** Identify the specific demographics, interests, and needs of your target readers.
- **Conduct keyword research:** Determine the search terms your audience uses to find information and optimize your content accordingly.
- **Create compelling content:** Write informative, engaging, and persuasive content that captivates your audience.
- **Optimize for distribution:** Ensure your content reaches the right people through effective distribution channels.

- **Measure and analyze your results:** Track your content's performance to identify what's working and adjust your strategy accordingly.

## **Common Questions and Answers**

**Q: Who should use this toolkit?** A: The Content Strategy Toolkit is designed for marketers, content creators, bloggers, and anyone who wants to improve the effectiveness of their content marketing efforts.

**Q: What's included in the toolkit?** A: The toolkit includes practical methods, step-by-step guidelines, and ready-to-use templates for every stage of the content creation process, from planning to execution and measurement.

**Q: How do I get started?** A: Start by reading the guide and downloading the accompanying templates. Then, follow the guidelines provided to develop your own content strategy.

**Q: What makes this toolkit unique?** A: The Content Strategy Toolkit draws on the expertise of industry professionals and combines academic research with real-world case studies. It offers practical, actionable advice that can be implemented immediately.

**Q: How much does the toolkit cost?** A: The Content Strategy Toolkit is available for purchase at a reasonable price. The investment will pay for itself many times over in the improved effectiveness of your content marketing.

**Can any IP camera work with Hikvision NVR?** Tips To Choose IP Camera For Hikvision NVR ONVIF Compatibility: Check if the cameras are ONVIF compliant. ONVIF is a global standard that allows interoperability between different brands of IP cameras and NVRs. ONVIF-compliant cameras should work with Hikvision NVRs.

**Are all IP cameras compatible with all NVRs?** Most modern cameras will work with NVR, and the main thing to look for is if the NVR supports Real Time Streaming Protocol (RTSP). Many experts recommend purchasing an NVR and IP camera from the same manufacturer for ease of support.

**What cameras does Hikvision support?**

**Do all Hikvision cameras support ONVIF?** However, there are some considerations to keep in mind: ONVIF Compatibility: Hikvision cameras typically comply with ONVIF (Open Network Video Interface Forum) standards. ONVIF is an open industry standard that facilitates communication between different IP-based security devices, including cameras and NVRs.

**How to add third party camera to Hikvision NVR?**

**Will Dahua IP camera work on Hikvision NVR?** Connect Dahua IP camera to Hikvision NVR can greatly enhance your surveillance capability. In this guide, we'll walk you through the process step by step, ensuring a seamless connection for optimal results.

**How many IP cameras can a Hikvision NVR handle?** You cannot add any more than 8 cameras/devices since the NVR only supports 8 channels (devices/cameras).

**Are all IP cameras ONVIF compatible?** Camera models made by Honeywell, Panasonic, Dynacolor, Sony, Samsung, Pelco, Bosch, Axis, HikVision, and Arecont Vision can be ONVIF compliant. (Note that not all cameras made by these companies are ONVIF compliant, so it is important to check ONVIF compatibility with the model number you are considering.)

**Can I connect IP camera directly to NVR?** Yes, you should have the same NVR functionality regardless of whether a camera is plugged directly into it, or plugged into a switch that's plugged directly into it. You'll only run into issues if you have a lot of cameras feeding through that one NVR. Switch cable such that you've used up all the cable bandwidth.

**What cameras work with Hik connect?** The Hik-connect app is designed to work with Hikvision series DVRs, NVRs, network cameras, indoor stations, doorbells, security control panels, and the Pyronix devices. It allows you to live view your cameras remotely.

**Can I add an IP camera to Hikvision DVR?** Step 1 First, find the IP address (using Advanced IP scanner or Fing) of the camera and note it down for later steps. Then head over to the DVR. Step 2 Login into the DVR/NVR and open the camera menu as shown in the picture below. Step 3 In the DVR camera management screen, click

on "Custom Adding".

**How do I add a different IP camera to NVR?** Make sure the NVR is powered on. Use an Ethernet cable to link the router and the PoE NVR, so as to connect your NVR to the internet. Connect each IP camera's Ethernet cable to the available PoE ports on the NVR. These connections will enable the cameras to receive power and send video feed to the NVR concurrently.

**How many IP cameras can a Hikvision NVR handle?** You cannot add any more than 8 cameras/devices since the NVR only supports 8 channels (devices/cameras).
