### **Scenario 3: Dealing with Corruption**

"What would Machiavelli's approach be to address widespread corruption within the government?"

Machiavelli believed in the necessity of maintaining order and stability above morality. He would likely recommend ruthless measures to purge corruption, including executing or exiling corrupt officials and severely punishing those involved in graft. He would prioritize the preservation of power and the efficient functioning of the state over personal integrity.

### **Scenario 4: Negotiating with Adversaries**

"How would Machiavelli handle a delicate negotiation with a hostile power?"

Machiavelli emphasized the importance of leverage and deception in negotiations. He would advise the leader to carefully assess their own strengths and weaknesses, as well as those of their adversary.
