[Download Complete File](#)

What is the brief history of Israel? The State of Israel was proclaimed in 1948, and Egypt, Transjordan (later Jordan), Syria, Lebanon, and Iraq immediately declared war on it. Israel won that war (see Arab-Israeli wars) as well as the 1967 Six-Day War, in which it occupied the West Bank, Gaza Strip, Golan Heights, and east Jerusalem.

What is the origin of the Jewish people in Israel? Nearly half of all Israeli Jews are descended from Jews who made aliyah from Europe, while around the same number are descended from Jews who made aliyah from Arab countries, Iran, Turkey, and Central Asia. Over two hundred thousand are, or are descended from, Ethiopian and Indian Jews.

When did Israel become the Jews? Thenceforth these people are referred to as Israelites until their return from the Babylonian Exile in the late 6th century bce, from which time on they became known as Jews.

What is the origin of the Jews? This religion is rooted in the ancient near eastern region of Canaan (which today constitutes Israel and the Palestinian territories). Judaism emerged from the beliefs and practices of the people known as "Israel". What is considered classical, or rabbinical, Judaism did not emerge until the 1st century CE.

What is the real story of Israel? Modern Israel springs from both religious and political sources. The biblical promise of a land for the Jews and a return to the Temple in Jerusalem were enshrined in Judaism and sustained Jewish identity through an exile of 19 centuries following the failed revolts in Judaea against the

Romans early in the Common Era.

What was Israel called in Jesus' time? This country received the name of Palestine, from the Philistines, who dwelt on the sea coast: it was called Judea, from Judah: and is termed the Holy Land, being the country where Jesus Christ was born, preached his holy doctrines, confirmed them by miracles, and laid down his life for mankind.

Which tribe of Israel did the Jews come from? Jews trace their ancestry to tribes that inhabited the Kingdom of Judah, including Judah, Benjamin and partially Levi, while the Samaritans claim their lineage from the remaining members of Ephraim, Manasseh, and Levi who were not deported in the Assyrian captivity after the fall of Israel.

Why did Jews leave Israel? Social and economic discrimination caused significant Jewish emigration from Palestine, and Muslim civil wars in the 8th and 9th centuries pushed many Jews out of the country. By the end of the 11th century the Jewish population of Palestine had declined substantially.

How did Jerusalem become Jewish? According to biblical accounts, Jerusalem, on the frontier of Benjamin and Judah and inhabited by a mixed population described as Jebusites, was captured by David, founder of the joint kingdom of Israel and Judah, and the city became the Jewish kingdom's capital. This has been dated to about 1000 bce.

What is the difference between Jews and Israelites? In liturgical usage, an Israelite is a Jew who is neither a cohen (descendant of Aaron, the first high priest) nor a Levite (descendant of early religious functionaries).

Who was Israel before Israel? Isaac was Abraham's son and Jacob his grandson, whose name was later changed to Israel (Gen. 32:28; 46:1).

What was the religion before Judaism in Israel? Yahwism, as it is called by modern scholars, was the religion of ancient Israel and Judah. An ancient Semitic religion of the Iron Age, Yahwism was essentially polytheistic and had a pantheon, with various gods and goddesses being worshipped by the Israelites.

What is the difference between Jews and Christians? The essential difference between Jews and Christians is that Christians accept Jesus as messiah and personal savior. Jesus is not part of Jewish theology. Amongst Jews, Jesus is not considered a divine being.

What were the Jews originally called? The Jewish people as a whole, initially called Hebrews (Ivrim), were known as Israelites (Yisre'elim) from the time of their entrance into the Holy Land to the end of the Babylonian Exile (538 bce).

Are the Israelites the Israelites? In the Bible the people of Israel are called Israelites but modern day people of Israel are called Israelis.

Why did God separate Israel? The split was prophesied by the Lord (1 Kings 11:11-13, 29-39) because of Solomon's sin. The northern 10 tribes kept the name of Israel. The once unified tribes of Jacob were now two nations. They were two houses, or two brothers if you will, that had become enemies.

Where did Israel come from originally? Modern Israel has its origins in the Zionism movement, established in the late 19th century by Jews in the Russian Empire who called for the establishment of a territorial Jewish state after enduring persecution.

What was Israel sin against God? In essence, though, there was really only one major sin, but the others led to this major sin, which was idolatry. The other sins they committed were just a step that took them into it. These verses list lust, idolatry, fornication, tempting God, and murmuring.

What ethnicity was Jesus? According to the Gospels, Jesus was a Jewish man born in Bethlehem and raised in the town of Nazareth, in Galilee (formerly Palestine, now northern Israel) during the first century.

Did God give Israel to the Jews? It holds that the area is a God-given inheritance of the Jewish people based on the Torah, particularly the books of Genesis, Exodus, Numbers and Deuteronomy, as well as Joshua and the later Prophets (Exodus 6:4: "I also established my covenant with them to give them the land of Canaan, where they resided as foreigners ...

Was Jesus born in Palestine or Israel? Was Jesus Palestinian? Many Christian schools of thought believe that Jesus was born in Bethlehem, in the now Israeli-occupied West Bank. "Jesus was born on our side of the wall," Palestinian pastor Reverend Munther Isaac told Al Jazeera.

What tribe of Jews was Jesus from? The Christian Messiah, Jesus Christ, was a descendant from the tribe of Judah.

Who lived in Israel before the Israelites? Its original pre-Israelite inhabitants were called Canaanites. The names Canaan and Canaanite occur in cuneiform, Egyptian, and Phoenician writings from about the 15th century bce as well as in the Old Testament.

Do the 12 tribes of Israel still exist? The 12 tribes of Israel divide into two kingdoms. After 70 years, many of the captives of Judah returned to Jerusalem and rebuilt the city. Because of this and their renewed diligence in keeping God's Sabbath, their history continued. However, the northern 10 tribes largely disappeared from history.

Why did God exile the Jews? Throughout the Hebrew Bible, the prophets argued that the exile happened because the people failed to follow God's instructions. God gave the people specific instructions in order to be faithful to the Lord. God believed the people had properly listened to the instructions God gave them.

What is the main religion in Israel now? The State of Israel declares itself as a "Jewish and democratic state" and is the only country in the world with a Jewish-majority population (see Jewish state). Other faiths in the country include Islam (predominantly Sunni), Christianity (mostly Melkite and Orthodox) and the religion of the Druze people.

Who ruled Israel during the time of Jesus? Herod the Great was in power at the time of Jesus' birth (interacting with the wisemen), and Herod Antipas was the one in power in Northern Israel (Southern Israel was under direct Roman rule) during the time of Jesus' ministry. Herod Agrippa 1 ruled over all 'Israel' and was in power during the time of Acts (Acts 12).

Who was Israel before he became Israel? The word Israel comes from Abraham's grandson, Jacob, who was renamed "Israel" by the Hebrew God in the Bible.

What was in Israel before Israel? Under the British Mandate (1920–1948), the whole region was known as Palestine.

What is a historical fact about Israel? Ancient History of Israel By 1300 BC, the people from the land of Canaan had completed their Exodus from Egypt, with Moses as their leader. Moses then introduced the Torah and the Ten Commandments, ensuring that the Jewish religion and culture would be passed down for centuries in Israel.

What is the story behind the Israel and Palestine conflict? The history of the Israeli–Palestinian conflict traces back to the late 19th century when Zionists sought to establish a homeland for the Jewish people in Ottoman-controlled Palestine, a region roughly corresponding to the Land of Israel in Jewish tradition.

Why did the Jews leave Israel? During the Crisis of the Third Century, economic disruption and high taxation due to civil wars in the Roman Empire caused many Jews to migrate from the Land of Israel to Babylon under the more tolerant Persian Sassanid Empire, where an autonomous Jewish community existed in the area of Babylon.

Who inhabited Israel before the Israelites? The Canaanites become one of the most intriguing examples of the neighboring group as "other" in the Bible, and because the narrator of the book of Genesis repeatedly calls the land Israel's ancestors occupy "Canaan," we begin with them.

What is the difference between Israel and Israelites? In early history, Israelites were simply members of the Twelve Tribes of Israel. After 930 bce and the establishment of two independent Hebrew kingdoms in Palestine, the 10 northern tribes constituting the kingdom of Israel were known as Israelites to distinguish them from the southern kingdom of Judah.

Where did Israel come from originally? Modern Israel has its origins in the Zionism movement, established in the late 19th century by Jews in the Russian Empire who called for the establishment of a territorial Jewish state after enduring

persecution.

What was Israel called in the Bible? Biblically, the land is first called Canaan and the Land of Milk and Honey. The descendants of Abraham through his son Jacob conquered the land and one of its names became Israel (since God had supposedly changed Jacob's name to Israel).

How did the Jews end up in Palestine? The early 1900s: British promote Zionist movement for a 'national home' for Jewish populations. The Balfour Declaration, issued by the British government in 1917, announced Britain's promise for a "national home for the Jewish people" in Palestine, which was then under the rule of the Ottoman Empire.

What is the very brief history of Israel? Israel's establishment as an independent sovereign state was officially declared in Tel Aviv on Friday May 14, 1948, by Zionist leader David Ben-Gurion, the day the British Mandate over Palestine was officially terminated, in accordance with UN Resolution 181.

Who originally founded Israel? On May 14, 1948, David Ben-Gurion, the head of the Jewish Agency, proclaimed the establishment of the State of Israel. U.S. President Harry S. Truman recognized the new nation on the same day.

What is special about Israel in the Bible? God chose the Israelites (the descendants of Abraham, Isaac and Jacob) for a special purpose. He offered them an opportunity to become the model nation of His way of life for all nations, so that all people could have His blessings.

What is the main reason for the fight between Israel and Palestine? Key aspects of the conflict include the Israeli occupation of the West Bank and Gaza Strip, the status of Jerusalem, Israeli settlements, borders, security, water rights, the permit regime, Palestinian freedom of movement, and the Palestinian right of return.

Is Jerusalem in Israel or Palestine? The city is currently divided between West Jerusalem, which is predominantly Jewish, and East Jerusalem with a majority Palestinian population. Israel captured East Jerusalem after the Six-Day War in 1967 along with the West Bank – a step not recognised by the international community.

Why does the US support Israel? In turn, Israel provides a strategic American foothold in the region as well as intelligence and advanced technological partnerships in both the civilian and military worlds. During the Cold War, Israel was a vital counterweight to Soviet influence in the region.

Solutions of P.S. Gill Engineering Drawing: Questions and Answers Breathing Space

1. What is the concept of orthographic projection?

Orthographic projection is a two-dimensional representation of a three-dimensional object, where the object is viewed from multiple angles. The resulting projections are perpendicular to each other, creating a clear understanding of the object's shape and dimensions.

2. Explain the difference between first angle and third angle projection.

In first angle projection, the object is placed between the observer and the projection plane. In third angle projection, the object is placed behind the projection plane. The difference lies in the way the views are arranged: in first angle projection, the front view is placed on the left, while in third angle projection, it is placed on the right.

3. What are the steps involved in creating an orthographic drawing?

- Identify the principal views of the object.
- Draw the front view.
- Draw the other views perpendicular to the front view.
- Project elements from the front view to the other views.
- Dimension and annotate the drawing.

4. Describe the different types of lines used in engineering drawings.

Engineering drawings use various types of lines to convey different information:

- **Visible lines:** Solid lines that indicate the visible edges of an object.
- **Hidden lines:** Dashed lines that indicate the hidden edges of an object.
- **Center lines:** Long dashed lines that indicate the center of an object.
- **Dimension lines:** Thick lines with arrowheads that indicate the dimensions of an object.

5. What are the common mistakes to avoid in engineering drawings?

- Omitting hidden lines
- Incorrect dimensions
- Incomplete annotation
- Ambiguous or cluttered drawings
- Poorly organized views
