How do you reset the symbol on a Liebherr freezer? Resetting the drop symbol
Activate setup mode by touching the SuperFrost icon for 5 seconds. Touch the freezer compartment Down icon until appears in the display. The drop symbol

disappears. Exit setup mode by touching the freezer compartment On/Off icon.

Why is the light flashing on my Liebherr refrigerator? If flashes in the display, there has either been a power failure or the temperature in the appliance exceeded the permissible range. The appliance has suffered a fault. Contact the customer service department. In the case of a power failure, the audible warning signal will sound and will be shown in the display.

Why is my Liebherr freezer not working? If your Liebherr is not cooling, it may be due to a broken evaporator. Evaporators often become broken due to ice build up, often found on the back wall. This happens due to the fan in this area becoming dirty or blocked.

What number should my Liebherr fridge be on? The optimal temperature setting for your Liebherr refrigerator may vary depending on personal preference and the specific model of the appliance. However, as a general guideline, a setting between 3 and 5 on the temperature gauge is often recommended for normal refrigeration purposes.

How do I reset my freezer control?

What does the snowflake symbol mean on freezer? The snowflake or an Igloo indicates the coldest temperature of the freezer from 1–7 it may differ according to the different models of the refrigerator the 7 indicates the highest level so it is indicate by using the snowflake or igloo icons.
