Is Kaplan GMAT worth it? Kaplan GMAT Practice Tests Kaplan and Manhattan Prep's practice tests are the real deal. I say that because they literally license their practice exams straight from GMAC, the makers of the exam. It's hard to beat real problems from past exams. It is the highest form of practice work, and you can't complain at all.

Is a 650 GMAT hard? 650 on the GMAT corresponds to 77 percentile. The reason why achieving 650 on the GMAT can get challenging is because in order to score 650 or above, you need to deal with tough questions during the GMAT exam. These questions require the skills of applying your knowledge, which requires significant practice.

How can I ace my GMAT in 2 months? Many students find that studying 5 days a week in three 30-minute segments, for an hour and a half each day, helps them make significant progress. Because your test is in 60 days, try to study for ten 30-minute segments, or two and a half hours a day, to maximize your score gain.

Is 2 months enough for GMAT reddit? Since you're preparing for the CAT, you should be covered for most of the Quant section and to an extent for the Verbal section of the GMAT. So, you may be able to achieve a 700+ score on the GMAT in two months. For insights into how to prepare, you could see this list of GMAT success tips and the following post.

Is 550 a bad GMAT score? Scores above 700 are generally considered strong and those below 600 are considered very weak. The following table showcases different possible combinations of scores on the Verbal and Quantitative sections and the overall GMAT score corresponding to each combination.

Is Kaplan harder than actual GMAT? While some agree that it is slightly tougher though a bit generous with their scoring algorithm, others say they are a good representative of your real GMAT performances. Either way, I will recommend that you stick to official GMATPREP Exams 1-6 to gauge your performance. Hope this helps. All the best!

Is 470 a bad GMAT score? A score of 470 places you in the lower percentile of test-takers, indicating that a significant portion of your peers has achieved higher scores. This can undoubtedly pose challenges in gaining admission to competitive MBA programs, particularly those with stringent admission criteria.

Is 490 a bad GMAT score? First, some perspective: A score of 490 is in the 32nd percentile at a time when the median GMAT for enrolled students at Harvard is in the 96th percentile. It's decidedly well below the 544 average score and there are some schools that would immediately toss the application in the rejection pile.

How rare is a 800 GMAT? To earn a perfect score, you must correctly answer all the counted questions in each section. That's not easy — but it is possible. According to the Graduate Management Admissions Council, fewer than 50 people out of more than 200,000 people who took the previous GMAT exam each year scored a perfect 800.

Is a GMAT starter kit enough? Scores on the official GMAT Prep practice tests are good for estimating how you would score on the real test. Regarding the missed questions, while missed questions in the verbal section drive your score down fairly quickly, you can miss a fair number of quant questions and still score rather high.

Is 1 month enough for GMAT? If you are committed to a 1-month schedule this plan will be time-consuming and require hard work, dedication, and focus to get through, but we know you can do it. Now, you can just dive into this plan! However, you'll find it more effective if you use it methodically.

GMAT COMPLETE 2017 THE ULTIMATE IN COMPREHENSIVE SELF STUDY FOR GMAT ONLINE

Is it possible to get 700+ on GMAT in 2 months? To score 700, people typically prepare for 200 to 300 hours over around two to four months. Once again, we're talking about a typical amount of time to prepare. Many people spend much more time preparing for the GMAT to score 700, and some spend much less time.

How long do most people study for the GMAT? How long does GMAT prep take? Remember, studying for the GMAT takes time. Plan to spend about two to three months and 100–120 hours reviewing material and practicing regularly. The top scorers on the GMAT spend 120+ hours, on average, studying for Test Day over a period of time.

What is the life span of a GMAT? GMAT scores are valid for up to five years after the exam date, but can be reported as a score attempt for up to ten years to any institution. This gives test takers the freedom to take the test and spend ample time studying to take the exam again if they did not achieve a desired score.

How can I improve my GMAT score in 1 month?

Is Kaplan better than Princeton Review for GMAT? Generally speaking, the GMAT prep programs from both companies are quite similar, but the main differences come down to the delivery of instruction. Kaplan excels with their high-quality video lessons, while Princeton Review excels with affordable live classes.

Are GMAT prep courses worth it? GMAT prep courses can be a great asset for business school applicants, but they're not right for everyone. Think about the pros and cons carefully before making your decision - if you do decide to take a course, make sure to choose one that fits your learning style and budget.

How hard is it to get a 550 on the GMAT? An average student won't find scoring 550 on the GMAT too hard. In fact, an average student may be able to score 550 without much preparation. An average student will likely find scoring 660 somewhat challenging and will likely have to prepare in earnest to achieve that score.

Which GMAT prep course is the best?

The Naval Institute Guide to Ships and Aircraft of the U.S. Fleet: 19th Edition

The Naval Institute Guide to Ships and Aircraft of the U.S. Fleet is the most authoritative and comprehensive reference available on the U.S. Navy's active and reserve ships and aircraft. The 19th edition of this bestselling guide includes:

- Detailed profiles of every ship and aircraft in the U.S. Navy, including their class, tonnage, length, beam, draft, displacement, speed, armament, complement, and sensors.
- More than 1,000 full-color photographs and illustrations
- In-depth analysis of the U.S. Navy's major ship types, including carriers, battleships, cruisers, destroyers, frigates, and submarines.
- A look at the latest developments in naval aviation, including the F-35 Lightning II and the P-8 Poseidon.
- A comprehensive index of all ship and aircraft names

Questions and Answers

The Naval Institute Guide to Ships and Aircraft of the U.S. Fleet is the most comprehensive reference available on the U.S. Navy's active and reserve ships and aircraft.

2. What is included in the 19th edition of the Guide?

The 19th edition of the Guide includes detailed profiles of every ship and aircraft in the U.S. Navy, including their class, tonnage, length, beam, draft, displacement, speed, armament, complement, and sensors. It also includes more than 1,000 full-color photographs and illustrations, in-depth analysis of the U.S. Navy's major ship types, and a look at the latest developments in naval aviation.

3. Who publishes the Guide?

The Guide is published by the U.S. Naval Institute, a private, non-profit organization that provides independent forums for debate and discussion of issues of importance to the sea services.

The Guide is updated annually.

5. Where can I purchase the Guide?

The Guide can be purchased from the Naval Institute Press website or from major booksellers.

Silberberg Chemistry 6th Edition Solutions: Questions and Answers

Question 1: What is the molarity of a solution containing 0.1 moles of NaCl in 250 mL of solution?

Answer: Molarity = moles of solute / volume of solution in liters = 0.1 moles / (250 mL / 1000 mL/L) = 0.4 M

Question 2: What is the percent by mass of a solution containing 10 grams of sucrose in 100 grams of water?

Answer: Percent by mass = (mass of solute / mass of solution) x 100% = (10 grams) / 110 grams) x 100% = 9.1%

Question 3: Calculate the pH of a 0.1 M solution of HCl.

Answer: pH = -log[H+], where [H+] is the molarity of hydrogen ions For HCl, [H+] = 0.1 M pH = -log(0.1) = 1

Question 4: What is the equilibrium constant expression for the reaction: $A + B \le C + D$?

Answer: Kc = [C][D] / [A][B]

Question 5: What is the oxidation state of nitrogen in HNO3?

Answer: In HNO3, nitrogen is bonded to three oxygen atoms, each of which has an electronegativity greater than nitrogen. Therefore, nitrogen loses three electrons to the oxygen atoms, resulting in an oxidation state of +5.

What is a lab manual in clinical trials? Lab manuals are an integral resource in the vast majority of clinical trials. In coordination with CROs and various lab vendors, GMAT COMPLETE 2017 THE ULTIMATE IN COMPREHENSIVE SELF STUDY FOR GMAT ONLINE

sponsors will compile lab kit management and sample management procedures for their trial into one concise document that offers guidance to their research sites.
