Mathematics is another core subject, comprising topics such as algebra, trigonometry, and calculus.

Science and Social Sciences:

Students can opt for two science subjects from Physics, Chemistry, Biology, and Computer Science. Each subject covers fundamental concepts, experiments, and applications. In Social Sciences, students can choose from History, Geography, Political Science, and Economics. These subjects explore historical events, geographical features, political systems, and economic principles.

Elective Subjects:

- Environmental Studies
- Physical Education
- Sanskrit

Class XII: Students can select two elective subjects from a wider range of options, including:

- Applied Mathematics
- Biology (for students who did not opt for Biology in Class XI)
- Computer Science (for students who did not opt for Computer Science in Class XI)
- Economics
- Environmental Science
- Physical Education
- Sanskrit
- Sociology

Key Changes in the Syllabus:

- **Reduced syllabus:** The syllabus for both classes has been reduced by approximately 30% to alleviate the burden on students.
- **Skill-based learning:** The revised syllabus emphasizes skill-based learning and application of concepts rather than rote memorization.
