How many pages are left of Bang?

What should you be doing when you find yourself left of the bang? However, when you are left of bang you are able to identify some of the pre-event indicators that exist before a crime is committed and have done so with enough time to be proactive. Getting left of bang is about being able to intervene earlier on the attack timeline and prevent criminal acts from occurring.

Who wrote "Left of Bang"? According to the book's authors, Patrick Van Horne and Jason A. Riley, "Operating left of bang requires intense concentration to identify the pre-event indicators" as well as the confidence to trust your gut instincts.

What is the right of bang? Being "Right of bang" is synonymous with being reactive and only responding to threats after they has made themselves known (i.e. after the bomb has exploded and shots have been fired causing injury or death).

What is likely happening to the right of the bang? "Bang" is when shots are fired, a bomb goes off, damage is done. On a timeline, "right of bang"" is after that happens where, in the worst-case scenario, you're a casualty.

How do you go out with a bang? If someone goes out with a bang, they finish or stop doing something in spectacular, noteworthy or otherwise interesting fashion.

When you start things off with a bang? If something begins or ends with a bang, it begins or ends with a lot of energy, enthusiasm, or success.
