monde et d'accéder aux stands disponibles.

Comment télécharger un hôtel ?

Il existe différentes façons de télécharger un hôtel. L'une des méthodes consiste à utiliser une application tierce, telle que iTools ou Dr.Fone. Ces applications permettent aux joueurs de modifier les paramètres de leur appareil et de falsifier leur position GPS. Une autre méthode consiste à utiliser un faux GPS, qui est une application qui remplace le signal GPS réel de votre appareil.

Est-il légal de télécharger des hôtels ?

Techniquement, le téléchargement d'hôtels ne viole aucune loi. Cependant, les développeurs du jeu, Niantic, découragent cette pratique. Niantic peut suspendre ou bannir les comptes des joueurs qui sont surpris en train de télécharger des hôtels.

Quels sont les risques du téléchargement d'hôtels ?

Le téléchargement d'hôtels comporte certains risques. Tout d'abord, cela peut entraîner la suspension ou l'interdiction de votre compte. De plus, l'utilisation d'applications tierces peut compromettre la sécurité de votre appareil. Enfin, le téléchargement d'hôtels peut gâcher votre expérience de jeu, car vous n'explorez pas réellement le monde réel.

Alternatives au téléchargement d'hôtels

Il existe des alternatives éthiques au téléchargement d'hôtels. Les joueurs peuvent participer à des raids et à des événements organisés par Niantic. Ils peuvent également voyager dans de vrais endroits pour accéder aux stands. Enfin, les joueurs peuvent échanger des monstres avec d'autres joueurs pour obtenir des espèces rares.
