Truck International Eagle 9900i: A Detailed Look at the User Manual

The International Eagle 9900i is a heavy-duty truck that offers power, efficiency, and comfort for professional drivers. To ensure optimal operation and maintenance, it's crucial to refer to the truck's comprehensive user manual. Here are some key questions and answers from the International Eagle 9900i User Manual:

Question 1: How do I start the engine?

Answer: Insert the key into the ignition and turn it to the "On" position. Wait for the instrument panel lights to illuminate. Depress the brake pedal and turn the key to the "Start" position. Release the key once the engine starts.

Question 2: How do I check the engine oil level?

Answer: Allow the engine to run briefly and then shut it off. Wait a few minutes for the oil to settle. Locate the engine oil dipstick and pull it out. Wipe the dipstick clean, reinsert it into the engine, and pull it out again. The oil level should be between the "Min" and "Max" marks.

Question 3: How do I operate the exhaust brake?

Answer: The exhaust brake is engaged by pulling the exhaust brake knob located on the instrument panel. The exhaust brake helps slow down the truck by restricting exhaust flow.

Question 4: How do I adjust the mirrors?

Answer: The side mirrors can be adjusted both manually and electronically. To adjust the mirrors manually, use the lever located on the inside of each mirror head. For electronic adjustment, use the control panel on the driver's side door.

Question 5: How do I access the fuse panel?

Answer: The fuse panel is located in the cab, behind the passenger seat. To access the fuse panel, pull the plastic cover located on the floor beneath the seat. The fuse panel contains various fuses that protect electrical components in the truck.
