Skyrim Item ID List: A Comprehensive Guide

Q: What is the Skyrim Item ID List?

A: The Skyrim Item ID List is a comprehensive database of every item in The Elder Scrolls V: Skyrim, including their unique item IDs. These IDs are essential for accessing, modifying, or removing items within the game.

Q: How can I access the Item ID List?

A: There are several ways to access the Item ID List. You can find online databases that list all items and their corresponding IDs. Additionally, you can use the console command "help" followed by the item name to display its ID.

Q: What is the purpose of using Item IDs?

A: Item IDs allow players to manipulate items in Skyrim through console commands. They can be used to spawn items, change their properties, or remove them entirely. This is especially useful for testing purposes, debugging, or creating custom mods.

Q: How do I use Item IDs?

A: To use Item IDs, open the console by pressing the "~" key and typing the following command:

```
player.additem <item ID> <quantity>
```

Replace "" with the actual item ID you wish to spawn, and "" with the desired amount. For example, to spawn 5 iron ingots, you would type:

```
player.additem 0005ACDD 5
```

Q: Are there any limitations to using Item IDs?

A: Yes, there are some limitations. Not all items can be spawned using Item IDs, and some items may have specific requirements or limitations associated with them. It's important to use Item IDs carefully and test their effects before making any permanent changes to your game.
